© Springer Nature B.V. 2019

We thank all the reviewers for their excellent expertise, which helped to increase the reputation of the journal *International Ophthalmology* and was instrumental in increasing the impact factor to 1.335. Without their dedicated hard and time-consuming work, such an improvement would not have been possible. The Editor-in-Chief—as well all authors and certainly also the broad readership of the Journal—express their sincere gratitude to all reviewers!
