Correction to: Surgical Endoscopy
<https://doi.org/10.1007/s00464-019-06682-5>

In the “Results” section of the Abstract, the sentence:

“The mortality rate was similar, but the percentage of patients who suffered from any complication (41.7% vs 24.4%, $p < 0.01$), the complication rate (65% vs 32.2%, $p < 0.01$), chest tube duration ($p < 0.01$) and the hospitalisation rate ($p < 0.01$) were higher for patients converted.”

should read:

“The mortality rate was similar, but the percentage of patients who suffered from any complication (41.7% vs 24.4%, $p < 0.01$), the complication rate (65% vs 32.2%, $p < 0.01$), chest tube duration ($p < 0.01$) and length of stay ($p < 0.01$) were higher for patients converted.”
