The authors regret in the article referenced above. In Fig. 6B, the H&E staining result of liver in male rats at 75 mg/kg/day group was wrong used due to our carelessness. In the corrigendum Figure, we have corrected the correct H&E staining result of rat liver in Fig. 6B, which showed no influence to the results. All authors of the paper are aware of the errors and have agreed to the correction. The authors regret and apologize for any inconvenience to readers arising from the error.

Liver

Corrected Fig. 6B–Representative sections (HE staining, $\times 10$) of livers of male rats at 75 mg/kg/day group.
