## Chest x-ray quiz

### Question

Compiled by Marea Reading RN, Consultant Cardiothoracic Nursing Education Sydney NSW

#### Question

This is an anterior-posterior (supine) chest X-ray of a 65-year-old man in the Intensive Care Unit. The chest X-ray was taken following placement of an endotracheal tube (ETT) and central venous catheter (CVC). Are you happy with the location of the ETT and CVC? What sign is present to indicate a pneumothorax?

Answer and Discussion for the Chest X-ray Quiz is in page 330
