

CLINICAL IMAGING

VOLUME 58, 2019

Contents

BODY IMAGING

- 5 **Reliability of Magnetic Resonance Imaging in diagnosis and assessment the depth of invasion of placental accreta in high risk gravid women**
Lamiaa M.R. Khalaf, Hazem Abou Zeid and Essam Rashad Othman
- 15 **Esophageal pneumatosis: Case report and review of literature**
Mayur Virarkar, Revathy Iyer, Priya Bhosale, Tharakeswara Bathala, Wui Chong and Girish Shroff
- 27 **Multi-detector CT enterography in active inflammatory bowel disease: Image quality and diagnostic efficacy of a low-radiation high contrast protocol**
Luigi Camera, Filomena Pezzullo, Angela Acampora, Raffaele Liuzzi, Antonio Rispo, Olga Maria Nardone, Gaetano Luglio, Luigi Bucci, Fabiana Castiglione and Arturo Brunetti
- 90 **Comparison of superb microvascular imaging to conventional color Doppler ultrasonography in depicting renal cortical microvasculature**
Jing Gao, Andy Thai and Todd Erpelding
- 114 **Normal ultrasound anatomy and common anatomical variants of the thyroid gland plus adjacent structures — A pictorial review**
Ana Germano, Willian Schmitt, Manuel Rio Carvalho and Rui M. Marques
- 194 **Magnetic resonance imaging of tubal ectopic pregnancy: correlation with intraoperative findings**
Ross Varma, Bijal Parikh, Christopher Beyer, Sharmila Ghosh, Diane Du, Gila Aaron and Amita Kamath

BREAST IMAGING

- 50 **Performance of breast lesion excision system (BLES) in complete removal of papillomas presented mammographically as groups of calcifications**
Alexandra Christou, Vassilis Koutoulidis, Dimitra Koulocheri, Evangelia Panourgias, Aphrodite Nonni, Constantinos G. Zografos and George C. Zografos
- 84 **Preliminary study: Breast cancers can be well seen on 3T breast MRI with a half-dose of gadobutrol**
Amy N. Melsaether, Eric Kim, Eralda Mema, James Babb and Sungeon Gene Kim
- 156 **Malignancy rates of stereotactic biopsies of two or more distinct sites of suspicious calcifications in women without known breast cancer**
Lauren Q. Chang Sen, Monica L. Huang, Jessica W.T. Leung, Wei Wei and Beatriz E. Adrada
- 182 **Pregnancy-associated breast cancer: A review of 47 women**
Füsün Taşkın, Yasemin Polat, İbrahim H. Erdoğdu and Aykut Soyder
- 187 **Lymphangitic spread of invasive lobular carcinoma to the contralateral breast**
Zachariah Burns, Lena Omar, Lindsay Compton, Jody Hayes, Sunati Sahoo and Kanwal Merchant

CARDIOTHORACIC IMAGING

- 1 Manual on-the-fly physician postprocessing of computed tomographic angiography data guides embolotherapy of atypical bleeding following paracentesis; a case report**
Nasir Siddiqi, Mohamed Issa, Driss Raissi, Chengao Qian, Gaby Gabriel and Michael Winkler
- 12 Isolated absence of the right pulmonary artery with coexisting left-sided heart failure: case report and literature review**
Kevin Yuqi Wang, Pritha Chitagi and Mohammad Ghasemi Rad
- 74 A simple and efficient method to perform preoperative pulmonary nodule localization: CT-guided patent blue dye injection**
Kai-Hsiung Ko, Tsai-Wang Huang, Shih-Chun Lee, Wei-Chou Chang, Hong-Wei Gao and Hsian-He Hsu
- 140 Progression of probable UIP and UIP on HRCT**
Mary Salvatore, Ayushi Singh, Rowena Yip, Esther Fevrier, Claudia I. Henschke, David Yankelevitz and Maria Padilla

MOLECULAR IMAGING AND NUCLEAR MEDICINE

- 46 Lateral ectopic thyroid mimics carotid body tumor on Indium-111 pentetretotide scintigraphy**
Prem P. Batchala, Anthony Dyer, Sugoto Mukherjee and Patrice K. Rehm

MUSCULOSKELETAL AND EMERGENCY IMAGING

- 22 Ultrasound shear wave elastography in assessment of skeletal muscle stiffness in senior volunteers**
Andrew Phan, Juhyun Lee and Jing Gao
- 66 Closed rupture of the flexor tendon pulleys of the thumb**
Michael S. Brown, John O'Donnell and Daniel Walz
- 70 MR distribution of active inflammatory and chronic structural sacroiliac joint changes in axial spondyloarthritis: Challenging conventional wisdom**
Daria Motamedi, Rina Patel, Kavi K. Devulapalli, Lianne S. Gensler and Lynne Steinbach
- 80 Prayer's fracture: rare cases of knee insufficiency fracture in non-weight-bearing femoral condyle**
Sana Salehi, Aidin Abedi, Jordan S. Gross and Ali Gholamrezanezhad
- 108 Magnetic Resonance Imaging characteristics in case of TOR1AIP1 muscular dystrophy**
Aashim Bhatia, Bret C. Mobley, Joy Cogan, Mary E. Koziura, Elly Brokamp, John Phillips, John Newman, Steven A. Moore and Rizwan Hamid
- 129 MR imaging of cartilage repair surgery of the knee**
Yong Wei Liu, Mark D. Tran, Matthew R. Skalski, Dakshesh B. Patel, Eric A. White, Anderanik Tomasian, Jordan S. Gross, C. Thomas Vangsness and George R. Matcuk Jr
- 166 Differential diagnosis of muscle calcification**
Elizabeth Lee, Joel Platt and Prachi P. Agarwal

NEURORADIOLOGY

- 34 Measurement of the depth of facial nerve at the level of stylomastoid foramen using MR imaging in Bell's palsy**
Harun Karaca, Levent Soydan, Selçuk Yildiz and Sema Zer Toros

- 39 Carotid artery atherosclerosis is not associated with hyoid proximity: Results from a cross-sectional and longitudinal cohort study**
James E. Siegler, Glenn Konsky, Christopher Renner, Andres Moreno-De-Luca, David Gutman, Brett Cucchiara and Steven R. Messé
- 96 Neuroimaging depression and anxiety in essential tremor: A diffusion tensor imaging study**
Yildizhan Sengul, Hafize Otcu, Ismet Ustun, Hakan S. Sengul, Tess Cersonsky, Alpay Alkan and Elan D. Louis
- 152 Spontaneous “pneumo-apoplexy” as a presentation of pituitary adenoma**
Aparna Singhal, Paul R. Gohlke and Philip R. Chapman
- 170 Magnetic resonance imaging findings in Parinaud's syndrome: comparing pineal mass findings to other etiologies**
Nanki Hura, Amrita-Amanda D. Vuppala, Sadaf Sahraian, Elham Beheshtian, Neil R. Miller and David M. Yousem
- 177 Novel diagnostic imaging features of facial lupus panniculitis: ultrasound, CT, and MR imaging with histopathology correlate**
Heather Kimball, David Kimball, Alan Siroy, Ibrahim Sacit Tuna, Brian J. Boyce and Mehmet Sait Albayram

PATIENTS, POLICY AND PRACTICE IMPROVEMENTS

- 191 Embracing social media in the era of work-life integration**
Hilda H. Tso and Jay R. Parikh

PEDIATRIC RADIOLOGY

- 59 Imaging findings in epithelioid hemangioendothelioma**
Yan Epelboym, Dawn R Engelkemier, Frederic Thomas-Chausse, Ahmad I. Alomari, Alyaa Al-Ibraheemi, Cameron C. Trenor III, Denise M. Adams and Gulraiz Chaudry
- 161 Diffuse esophageal leiomyomatosis: A case report with surgical correlation**
Jordan B. Rapp, Sean Ciullo and Mary G. Mallon

VASCULAR AND INTERVENTIONAL RADIOLOGY

- 105 Percutaneous drainage of an infected endometrioma**
Joshua Cornman-Homonoff, Tamatha B. Fenster and Marc H. Schiffman
- 145 Hybrid venous recanalization and cardiac implantable electronic device lead revision procedures: A single-center retrospective analysis of 38 patients**
William M. Sherk, Minhaj S. Khaja, Eric D. Good, Ryan T. Cunnane, Narasimham L. Dasika and David M. Williams

A NOTE OF THANKS

- 201 Gratitude to Clinical Imaging Reviewers, with a look forward to 2020**
Elizabeth Kagan Arleo
- A1 Dr. Alice Ettinger: Pioneer of fluoroscopy and exceptional teacher**
Kirti Magudia
