

Erratum to: "Hippocampal Salt-Inducible Kinase 2 Plays a Role in Depression via the CREB-Regulated Transcription Coactivator 1-cAMP Response Element Binding-Brain-Derived Neurotrophic Factor Pathway," by Jiang *et al.* (*Biol Psychiatry* 2019; 85: 650–666); [10.1016/j.biopsych.2018.10.004](https://doi.org/10.1016/j.biopsych.2018.10.004).

After the article-in-press version of this paper was published online, the corresponding author, Bo Jiang, wrote to the *Journal* stating that two authors, Wei-Zhong Zhu and Chao Huang, needed to be removed from the author list because they did not meet full authorship criteria. Although all authors received the *Journal's* standard submission notification letter, which includes the full criteria for authorship, and the paper went through two rounds of revision, the authors stated that they did not realize until after online publication that these two individuals did not meet the required criteria. The corresponding author has stated that these two individuals assisted with antibodies and technical guidance, but did not contribute sufficiently to justify authorship.

The *Journal* then requested and received confirmation from every author that they agree with the new author list. The *Journal* also received explicit, direct confirmation from both removed authors, Wei-Zhong Zhu and Chao Huang, that

they do not meet the criteria for authorship and agree to removal.

Thus, the final paginated version of this article reflects the following changes: 1) Wei-Zhong Zhu was removed from the 10th position in the author list; 2) Chao Huang was removed from the 13th position in the author list; 3) Wei-Zhong Zhu's grant (No. 81770400) from the National Natural Science Foundation of China was removed from the list of funders; 4) Chao Huang's grant (No. 81571323) from the National Natural Science Foundation of China was removed from the list of funders; 5) The initials of both authors were removed from the list of author contributions; and 6) Wei-Zhong Zhu is now thanked for technical guidance.

The originally published author list was as follows: Bo Jiang, Hao Wang, Jin-Liang Wang, Ying-Jie Wang, Qing Zhu, Cheng-Niu Wang, Lu Song, Ting-Ting Gao, Yuan Wang, Wei-Zhong Zhu, Guo-Liang Meng, Feng Wu, Chao Huang, Yong Ling, Wei Zhang, and Jun-Xu Li.

The new author list, as it appears in the final published article, is as follows: Bo Jiang, Hao Wang, Jin-Liang Wang, Ying-Jie Wang, Qing Zhu, Cheng-Niu Wang, Lu Song, Ting-Ting Gao, Yuan Wang, Guo-Liang Meng, Feng Wu, Yong Ling, Wei Zhang, and Jun-Xu Li.
