The authors regret that a corrigendum has to be published to the protologues describing the species, *Acetobacter oryzifermentans* sp. nov. and *Acetobacter ascendens* sp. nov.

Changes:

1. Because ‘*Acetobacter ascendens*’ is an elevation in rank, it was ‘sp. nov.’ and not ‘comb. Nov.’ and there is no basonym. Therefore, the words ‘comb. nov.’ after ‘*Acetobacter ascendens* sp. nov.’ or ‘*A. ascendens* sp. nov.’ in the title, abstract, main text, tables and protologues were deleted. In addition, ‘*Acetobacter ascendens* (Henneberg 1898); basonym, *Acetobacter pasteurianus* subsp. *ascendens* (Henneberg 1898) and *Acetobacter pasteurianus* subsp. *paradoxus* (Frateur 1950),’ in the protologue of *Acetobacter ascendens* was corrected to ‘Elevation in rank from *Acetobacter pasteurianus* subsp. *ascendens* Henneberg 1898 (Approved Lists 1980).’
2. The abbreviation of *Acetobacter*, ‘A.’, was corrected to ‘*Acetobacter*’ in the protologues.
3. In the etymology of *Acetobacter oryzifermentans*, ‘N.L. part. adj. *fermentans* fermenting’ was corrected to ‘L. part. adj. *fermentans* fermenting’.

4. The strain name of *Acetobacter pomorum* ‘LHT 2458^T’ was corrected to ‘LTH 2458^T’ in the main text and tables.

The corrected protologues are below.**Description of *Acetobacter oryzifermentans* sp. nov.**

Acetobacter oryzifermentans (o.ry.zi.fer.men'tans. L. n. oryza, rice; L. part. adj. *fermentans* fermenting; N.L. adj. *oryzifermentans* rice-fermenting).

Description of *Acetobacter ascendens* sp. nov.

Elevation in rank from *Acetobacter pasteurianus* subsp. *ascendens* Henneberg 1898 (Approved Lists 1980).

The description of this species is as presented by Lisdiyanti et al. [13], Henneberg [61], De Ley and Frateur [10], and Frateur [62] for *Acetobacter pasteurianus* subsp. *ascendens* (Henneberg 1898) and *Acetobacter pasteurianus* subsp. *paradoxus* (Frateur 1950) with the following additions.
