

Erratum to: "Patterns of Psychiatric Comorbidity and Genetic Correlations Provide New Insights Into Differences Between Attention-Deficit/Hyperactivity Disorder and Autism Spectrum Disorder," by Solberg *et al.* (*Biol Psychiatry* 2019; 85:587–598); [10.1016/j.biopsych.2019.04.021](https://doi.org/10.1016/j.biopsych.2019.04.021).

The authors have recognized errors after the corrected proof of this article was published online. Specifically, in the Results section on page 589, there is an error in the third sentence of the "Psychiatric Comorbidity in Adults With ADHD, ASD, or ADHD+ASD" section. The PR_{SUD} and PR_{ASD} labels were incorrect and should have been PR_{SCZ} and PR_{SUD} ,

respectively. The correct text reads as follows: "...while the association with SCZ was the strongest and the association with SUD was the weakest in adults with ASD (PR_{SCZ} , 13.9; 95% CI, 12.7–15.2; PR_{SUD} , 1.9; 95% CI, 1.7–2.2) (Table 2, model II)."

In addition, Figure 2 contained errors, showing the wrong estimates for the ASD group in the schizophrenia, anxiety, and depression graphs.

These errors have been corrected in the final paginated version of this article.
