Biological Psychiatry

CNNI Cognitive Neuroscience and Neuroimaging

Aims and Scope

Biological Psychiatry: Cognitive Neuroscience and Neuroimaging is an official journal of the Society for Biological Psychiatry, whose purpose is to promote excellence in scientific research and education in fields that investigate the nature, causes, mechanisms, and treatments of disorders of thought, emotion, or behavior. In accord with this mission, this peer-reviewed, rapid-publication, international journal focuses on studies using the tools and constructs of cognitive neuroscience, including the full range of non-invasive neuroimaging and human extra- and intracranial physiological recording methodologies. It publishes both basic and clinical studies, including those that incorporate genetic data, pharmacological challenges, and computational modeling approaches.

The journal publishes novel results of original research which represent an important new lead or significant impact on the field. Reviews and commentaries that focus on topics of current research and interest are also encouraged.

Editor

Cameron S. Carter, MD
University of California, Davis
Sacramento, California

Deputy Editors

Anissa Abi-Dargham, MD
Stony Brook Univ, Stony Brook, NY

Deanna M. Barch, PhD
WUSTL, St. Louis, MO

Edward T. Bullmore, MB, PhD, FMedSci
Univ of Cambridge, Cambridge,
United Kingdom

Quentin J.M. Huys, MD, PhD
Univ College London, London, United Kingdom

Murray B. Stein, MD, MPH
UC San Diego, La Jolla, CA

Editorial Committee

Carrie E. Bearden, PhD
UCLA, Los Angeles, CA

Dennis S. Charney, MD
Mount Sinai, New York, NY

David Goldman, MD
NIAAA, Rockville, MD

Raquel E. Gur, MD, PhD
Univ of Pennsylvania, Philadelphia, PA

Ex Officio

Mary L. Phillips, MD
Univ of Pittsburgh, Pittsburgh, PA

Scott L. Rauch, MD
McLean Hospital, Belmont, MA

Carol A. Tamminga, MD
UT Southwestern, Dallas, TX

Editor-in-Chief, SOBP Publications

John H. Krystal, MD
Yale Univ, New Haven, CT
