Retraction notice to Substitution reactions of diiron dithiolate complexes with phosphine or isocyanide ligands [Journal of Organometallic Chemistry (2014) 117-124]

Xu-Feng Liu

Department of Chemical Engineering, Ningbo University of Technology, Ningbo, 315016, China

This article has been retracted: please see Elsevier Policy on Article Withdrawal (https://www.elsevier.com/about/our-business/policies/article-withdrawal).

This article has been retracted at the request of the Author, for the following reasons.

Firstly, some of the work reported as new in this paper, was previously conducted by someone else, and is now published by Li-Cheng Song et al. (Eur. J. Inorg. Chem., 2014, 1886–1895, http://onlinelibrary.wiley.com/doi/10.1002/ejic.201301553/suppinfo). Secondly, the synthetic method used and the proposed mechanism for the formation of several of the compounds, are similar to those previously reported by Prof. Li-Cheng Song. Finally, portions of the manuscript are worded identically to those in manuscripts that have been published by Prof. Li-Cheng Song.
