

Kiana Chen Bio

Kiana Chen was born and raised in the Bronx, NY where she developed an interest in research sciences and biology in high school. While attending college, she worked and volunteered for Montefiore Medical Center's Cardiology Department to gain research experience and knowledge on human health outside of her semester courses. She recently received a Bachelor of Science degree for Biology from Stony Brook University and is planning to continue on to study at the University of Rochester for a Ph.D. in Pathology.

Angela Cheng-Lai, Pharm.D., BCPS

Dr. Cheng-Lai is a Clinical Pharmacy Manager at Montefiore Health System. She received her doctorate degree in Pharmacy from the State University of New York at Buffalo. During her years of working at Montefiore, Dr. Cheng-Lai developed a strong interest in Cardiology and focused many of her research and publications in this area. Dr. Cheng-Lai is a co-editor of the book Current Cardiovascular Drugs, 3rd and 4th editions. She is also a pharmacology section editor for the journal Cardiology in Review. In addition to caring for patients at the CICU, she works as an outpatient pharmacist at a heart failure Collaborative Drug Therapy Management clinic at Montefiore. She is also an associate professor of medicine at the Albert Einstein College of Medicine.
