

**Oluwaseun A. Akinseye, MD, MPH**

Dr. Akinseye is currently an Interventional Cardiology fellow at the University of Tennessee Health Science Center, Memphis, TN. Dr. Akinseye received his medical degree from the prestigious Ladoke Akintola University in Nigeria and then moved to Icahn School of Medicine at Mount Sinai, Queens Hospital Center, NY to complete his Internal Medicine training. Dr. Akinseye was the Academic Chief fellow for the UTHSC Cardiovascular Disease Program. He is board certified in Internal Medicine and he has had a number of abstracts and presentations accepted to the American College of Physicians, American Heart Association, International Stroke Conference, Transcatheter Cardiovascular Therapeutics, Society of General Internal Medicine and American College of Cardiology. He has authored and co-authored over 40 published abstracts and manuscripts in several peer reviewed Journals.

**Showkat A. Haji, MD, FACC, FSCAI**

Dr. Haji is an Assistant Professor of Medicine in the Division of Cardiology at University of Tennessee Health Science Center. He is also the Medical Director of the Cardiac Cath lab and Director of heart failure program at Regional one Hospital. Dr. Haji supervises the overall teaching program, evaluation of trainees. His skills range from interventional cardiology, treatment of peripheral vascular disease and he is a trained heart failure specialist. Dr. Haji is ABIM board certified in Internal Medicine, Cardiovascular Diseases and interventional cardiology. He actively participates in the direct clinical training of the fellow. He is an educator and research investigator. He is the author and co-author of more than 50 manuscripts published in peer-reviewed journals.

**Dr. Santhosh K.G. Koshy, MBBS, MD, MA, DM, DNB, MBA, FACC, FSCAI**

Dr. Koshy is a Professor of Medicine and the Chair of the Department of Internal Medicine, Texas Tech University Health Sciences Center Lubbock. He was the vice-Chair of the Department of Medicine at the University of Tennessee Health Sciences Center. Dr. Koshy was also the Chief of Medicine at Regional One Health System of University of Tennessee Health Sciences Center. He was the Director of Cardiovascular Services at the Regional One Health and the Director of Interventional Cardiology at University of Tennessee Health Sciences Center. Dr. Koshy is American Board Certified in Cardiology, Interventional Cardiology, Echocardiography and Nuclear Cardiology. He is a board member of International Society of Cardiac Ultrasonography and member of SCAI committee on training standards. He has authored several articles in peer-reviewed journals and contributed to many book chapters. He is an editorial board member of various medical journals including 'Echocardiography' and he is also a reviewer for more than 10 medical journals. He has chaired various sessions in national and international conferences and his research were presented in premier meetings like annual sessions of American Heart Association, American College of Cardiology, International Academy of Cardiology, World Congress of Cardiology and Cardiological Society of India.

**Uzoma N. Ibebuogu, MD, FACC, FSCAI**

Dr. Ibebuogu is an Associate Professor of Medicine, Section of Cardiology at the University of Tennessee Health Science Center, Memphis, and the Director of Structural Heart Disease Intervention at the Methodist University Hospital, Memphis, Tennessee. Dr. Ibebuogu obtained his medical degree from the prestigious College of Medicine, University of Ibadan, Nigeria. He completed his Internal Medicine residency and Cardiology fellowship at the Medical College of Georgia in Augusta and subsequently underwent Interventional Cardiology fellowship and structural heart disease training at Cedars-Sinai Medical Center/ University of Los Angeles, California program. Dr. Ibebuogu is a fellow of the American College of Cardiology and the Society for Cardiac Angiography and Interventions and a member of the American Heart Association. He serves on the council of the American College of Cardiology, Tennessee chapter and as a delegate of the Memphis Medical Society. He has authored and co-authored many peer-reviewed articles on coronary atherosclerosis and transcatheter aortic valve replacement therapies, and he is a reviewer for more than 5 reputable clinical journals. His research works has been presented in multiple national and international conferences. He serves as invited faculty for the Transcatheter Cardiovascular Therapeutics conference and chaired a session on structural heart disease at the 2019 American College of Cardiology Scientific Session.

**Rami Khouzam, MD, FACC, FACP, FASNC, FASE, FSCAI**

Dr. Khouzam is the Program Director of the Interventional Cardiology Fellowship and Associate Program Director of the Cardiology Fellowship Programs at the University of Tennessee Health Science Center. He is a Professor of Medicine with tenure in the Division of Cardiology at University of Tennessee Health Science Center. He is also the Medical Director of the Cardiac Cath labs at Methodist University Hospital and all Methodist Le Bonheur HealthCare Hospitals system. Dr. Khouzam supervises the overall teaching program, evaluation of trainees and quality control. Dr. Khouzam is Vice Chair of the Medicine Department at Methodist University Hospital. He assumes the role of Chief of Staff of the Unified Medical Staff for the Methodist LeBonheur Health Care System.

Dr. Khouzam is ABIM board certified in Internal Medicine, Cardiovascular Diseases and Interventional cardiology. He also possesses board certification from the American Society of Nuclear Cardiology, the American Society of Echocardiography and the Certification Board of Cardiovascular Computed Tomography. He supervises and prepares the presentations of the Cath conference weekly, as well as the Journal Club and Morbidity & Mortality conferences monthly. He actively participates in the direct clinical training of the fellow. He is an educator and research investigator. He is the author and co-author of more than 220 manuscripts published in peer-reviewed journals, 3 book chapters as well as a reviewer for more than 10 medical journals.

Dr. Khouzam performs, supervises and teaches at the Methodist University Hospital, Methodist South Hospital, and Methodist Olive Branch Hospital.

**Nadish Garg, MD FACC FSCAI FASE**

Dr. Garg has been serving as Associate Professor at University Of Tennessee health Science. He specializes in Structural/Interventional cardiology and cardiovascular imaging. His primary interests include valve disease, complex coronary interventions and echocardiography. Dr. Garg received his medical degree from Dayanand Medical College and Hospital in Ludhiana, India. He completed his residency in internal medicine at the University of Missouri, Columbia, Mo., followed by a research fellowship and a clinical fellowship in cardiovascular medicine. At Houston Methodist DeBaakey Heart & Vascular Center, he completed a fellowship in advanced cardiovascular imaging followed by a fellowship interventional cardiology at the University of Arkansas Medical Sciences in Little Rock and Structural Heart training at Duluth, MN. He is board certified by the American Board of Internal Medicine (ABIM), ABIM: Cardiology, National Board of Echocardiography, ABIM: Interventional Cardiology, Certification Board of Cardiovascular Computed Tomography, and the American Society of Nuclear Cardiology. Dr. Garg has a keen interest in academic medicine /cardiology and published over 20 manuscripts in field of interventional cardiology, valvular heart disease and atrial fibrillation.
