

**Daniel Dante Yeh, MD**, is Associate Professor of Surgery at the University of Miami / Jackson Memorial Hospital / Ryder Trauma Center. He received his medical degree at Boston University School of Medicine and completed a residency in general surgery at Jackson Memorial Hospital. He completed a trauma/surgical critical care fellowship at the University of California San Francisco / San Francisco General Hospital. He maintains a clinical focus in surgical nutrition, emergency general surgery, and trauma, and his research interests include enterocutaneous fistulas and intestinal failure.

**Matthew Martin, MD**, is currently the Associate Director of Trauma Research at Scripps Mercy Medical Center in San Diego, California. He recently retired at the rank of Colonel from the U.S. Army where he served as the Trauma Medical Director and Chief of Surgical Critical Care at Madigan Army Medical Center (MAMC), Joint Base Lewis-McChord, Washington. He is a Clinical Professor of Surgery at the University of Washington School of Medicine and Professor of Surgery at the Uniformed Services University in Bethesda, Maryland. Dr. Martin also serves as the Director of Trauma Informatics at Legacy Emanuel Medical Center in Portland, Oregon. He has deployed 3 times in support of Operation Iraqi Freedom/Inherent Resolve and twice in support of Operation Enduring Freedom (Afghanistan). Dr. Martin received his BA in psychology from Boston University, an MA in Medical Science from Boston University School of Graduate Education and MD from the Boston University School of Medicine. He completed residency training in general surgery at Madigan Army Medical Center and a fellowship in Trauma and Surgical Critical Care at Los Angeles County Hospital + USC Medical Center in Los Angeles, California.

**Joseph Sakran, MD, MPH, MPA**, is Assistant Professor of Surgery, Director of Emergency General Surgery, and Associate Chief of the Division of Acute Care Surgery at the Johns Hopkins Hospital. As a former victim of gun violence, Dr. Sakran spends a significant portion of his time as a clinician, researcher, and advocate with a primary goal of reducing firearm death and disability in America. Joe serves as a Board Director for the Brady Campaign and recently was selected to join the Presidential Leadership Scholars program.

**Karien Meier, MSc**, is a medical graduate student at University of Leiden in the Netherlands. She has a Master of Science degree in Economic and Consumer Psychology from the University of Leiden. She worked as a research fellow at the Division of Trauma, Emergency Surgery and Surgical Critical Care at the Massachusetts General Hospital in Boston. Karien Meier is currently part of the research team of the Department of Trauma Surgery at Leiden University Medical Center. Her research interests include metabolomics and nutritional status in the field of trauma and acute care surgery.

**April Mendoza, MD, MPH**, is Instructor of Surgery at the Harvard Medical School/Massachusetts General Hospital. She received her medical degree at Loyola University Medical Center, and completed a residency in general surgery at Louisiana State University Health Sciences Center in New Orleans, Louisiana. She completed a trauma/surgical critical care fellowship at the University of California San Francisco / San Francisco General Hospital. Her interests include translational trauma immunology and immunonutrition.

**April A. Grant, MD**, is Assistant Professor of Surgery at the Emory University School of Medicine at Grady Hospital in Atlanta, Georgia. She received her medical degree at University of South Carolina School of Medicine and completed a residency in general surgery at Greenville Health System in Greenville, South Carolina. She completed a trauma/surgical critical care fellowship at Ryder Trauma Center in Miami, Florida. She maintains a clinical focus in extracorporeal membrane oxygenation and research interests include mechanical circulatory support, resuscitation, and surgical nutrition.

**Jonathan Parks, MD**, is currently a fellow in trauma surgery and surgical critical care at Ryder Trauma Center/Jackson Memorial Hospital. He completed his undergraduate degree at the Massachusetts Institute of Technology. He received his medical degree and completed general surgery residency at SUNY Downstate Medical Center. His research interests include surgical nutrition as well as clinical decision support using machine learning.

**Saskya Byerly, MD**, is a Trauma and Critical Care Fellow at the University of Miami / Jackson Memorial Hospital / Ryder Trauma Center. She received her undergraduate degree at the California Institute of Technology and a Masters degree in mathematics from Northwestern University. She subsequently completed medical school at the Keck School of Medicine and surgery residency at the University of Southern California. Her research interests include vascular trauma, surgical nutrition, and machine learning.

**Eugenia Ester Lee, MD, MPH**, is a Trauma and Critical Care Fellow at the University of Miami / Jackson Memorial Hospital / Ryder Trauma Center. She received her medical degree at New York University School of Medicine, and completed a residency in general surgery at Los Angeles County Hospital/ Keck Hospital of the University of Southern California. Her research interests include surgical nutrition, resuscitation in trauma, and cardiopulmonary support in critical care.

**W. Ian McKinley, BS, BA**, is a medical student at the University of Louisville School of Medicine. He received his undergraduate degrees in biomedical sciences and Spanish from Auburn University. He will be pursuing a residency in General Surgery with an interest in trauma and critical care.

**Stephen A. McClave, MD**, is a Professor of Medicine at the University of Louisville School of Medicine. He received his medical degree from Ohio State University and completed residency in internal medicine at the Medical University of South Carolina Medical Center. He completed a gastroenterology fellowship at the University of South Florida. He maintains a clinical focus in critical care nutrition, aspiration and gastric residual volumes, and endoscopic ultrasound.

**Keith Miller, MD**, is Associate Professor of Surgery in the Hiram C. Polk, Jr, MD, Department of Surgery at the University of Louisville School of Medicine. He received his medical degree from Indiana University School of Medicine followed by a residency in general surgery and fellowship in trauma/ surgical critical care at the University of Louisville. He maintains a clinical focus in trauma, critical care, emergency general surgery, and surgical nutrition and his research interests include

metabolic support following traumatic injury, resident education, and firearm injury prevention.

**John Mazuski, MD, PhD**, is Professor of Surgery at Washington University in Saint Louis, Missouri in the Section of Acute and Critical Care Surgery. He received his medical degree at the University of California, Los Angeles. He completed a surgical residency and a fellowship in surgical critical care, both at the University of Minnesota. He received a PhD degree in biochemistry from the University of Minnesota. He serves as Co-Director of the Surgical ICU at Barnes-Jewish Hospital in Saint Louis. His research interests relate to the optimal management of surgical infections and provision of nutritional support to surgical patients. Dr. Mazuski is a Past President of the Surgical Infection Society.

**Beth Taylor, DCN, RD-AP**, is an advanced practice dietitian/Research Scientist at Barnes-Jewish Hospital/Washington University School of Medicine. She received her doctorate degree from Rutgers University. She has practiced primarily in the surgical/trauma intensive care unit and her research interests include critical care nutrition, optimization of bedside small bowel tube placement/early feeding, impact of nutrition and exercise on muscle synthesis and loss, and glycemic control in the intensive care unit.

**Casey Luckhurst, MD**, is a general surgery resident and current surgical critical Care Fellow at the Massachusetts General Hospital. She received her medical degree at the University of Florida College of Medicine. She intends to pursue a career in trauma/surgical critical care.

**Peter Fagenholz, MD**, is Assistant Professor of Surgery at Harvard Medical School/Massachusetts General Hospital. He received his medical degree from New York University and completed a residency in general surgery and a fellowship in surgical critical care at Massachusetts General Hospital. He is the Director of the Massachusetts General Hospital Pancreatitis Treatment Program and is Associate Program Director for both the general surgery residency and the surgical critical care fellowship. His interests are acute pancreatitis, especially minimally invasive treatment of pancreatic necrosis, abdominal wall reconstruction, emergency general surgery, and trauma.
