

Please visit our companion journal, **JAAD Case Reports**, at www.jaadcasereports.org to read these exciting articles from the most recent issue.

Chronic symmetrically distributed hyperpigmented plaques in a middle-age woman

Etsubdenk Ajebo, BS, Weston B. Wall, MD, and Loretta S. Davis, MD

A subcutaneous nodule on the mid back

Rachel A. Orleans, MPH, Cynthia M. Magro, MD, and George I. Varghese, MD

An atypical presentation of a rare disease

Elizabeth Schoenberg, BA, Kathleen P. McGuinn, MD, Deirdre Connolly, MD, and Sherry Yang, MD

Hyperpigmented patch of the left hemithorax

Adam Levin, BS, Harib Ezaldein, MD, Robert M. Rothbaum, MD, and Gregory R. Delost, DO

New cutaneous nodules associated with pulmonary symptoms

Emily M. Khatchaturian, DO, and Gregory L. Simpson, MD

Autopsy findings and clinical features of a mild-type xeroderma pigmentosum complementation group A siblings: 40 years of follow-up

Taro Masaki, MD, PhD, Mariko Tsujimoto, MD, PhD, Riko Kitazawa, MD, PhD, Eiji Nakano, MD, PhD, Yoko Funasaka, MD, PhD, Masamitsu Ichihashi, MD, PhD, Sohei Kitazawa, MD, PhD, Akiyoshi Kakita, MD, PhD, Fumio Kanda, MD, PhD, and Chikako Nishigori, MD, PhD

Adult-onset bilateral Parry-Romberg syndrome

Elizabeth Tkachenko, BS, Michael J. Cunningham, MD, Patrick J. O'Donnell, DO, and Nikki A. Levin, MD, PhD

Use of AccuVein AV400 for identification of probable RICH

Fatmah AlZahrani, MD, Megan Crosby, BSc, and Loretta Fiorillo, MD, FRCPC

Nivolumab-associated DRESS syndrome: A case report

Jessica Lu, Thusanth Thuraisingam, MD, PhD, May Chergui, MD, FRCPC, and Khue Nguyen, MD, FRCPC, FAAD

Resolution of pseudoainhum with acitretin therapy in a patient with palmoplantar keratoderma and congenital alopecia

Patricia M. Richey, MD, and Mary S. Stone, MD

JAAD Case Reports (continued)

Delayed-onset pseudoepitheliomatous hyperplasia reaction to red tattoo pigment resembling squamous cell carcinoma

Andrew P. Sauvageau, BS, Jacob A. Mojeski, BS, Michael J. Bax, MD, and Paul N. Bogner, MD

Verrucous carcinoma: An unexpected finding arising from a burn scar

Claire E. Hannah, BS, Emily A. Weig, BS, Sigrid Collier, MD, MPH, Mary S. Stone, MD, Omar Juma, MD, MPH, Jane J. Mcharo, CO, Nkanyezi N. Ferguson, MD, and Karolyn A. Wanat, MD

A patient with POEMS syndrome responding to modified CyBorD chemotherapy as a bridge to autologous stem cell transplantation

Emily C. Milam, MD, Kathryn J. Martires, MD, Kristen I. Lo Sicco, MD, David J. Araten, MD, and Andrew G. Franks, Jr, MD

Syringotropic and folliculotropic mycosis fungoides with mycosis fungoidese—associated vasculopathic ulcers

Yousif A. Yonan, MD, Helen J.L. Cumsky, BS, Collin M. Costello, MD, Connor J. Maly, BS, Allison C. Rosenthal, DO, Craig B. Reeder, MD, William G. Rule, MD, Mark R. Pittelkow, MD, Fiona E. Craig, MD, David J. DiCaudo, MD, and Aaron R. Mangold, MD

Linear IgA bullous dermatosis protracted by vancomycin-loaded bone cement

Nathan Nartker, MD, Natalie Kudlak, DO, and David Crowe, MD

An aggressive case of granulomatous eosinophilic pustular folliculitis on the face

Yuri Kinoshita, MD MSc, Takeshi Kono, MD, PhD, Shin-ichi Ansai, MD PhD, and Hidehisa Saeki, MD, PhD

Multifocal paraganglioma, mycosis fungoides, and monoclonal B-cell lymphocytosis in association with *RAD51C* mutation

Amrita Goyal, MD, Kevin Gaddis, MD, and Kimberly Bohjanen, MD

Thermal burn on denervated skin that developed after sun exposure on black clothing

Amanda Schneider, MD, Denisa E. Ferastraoaru, MD, and David L. Rosenstreich, MD

A unique clinical and histologic presentation of catastrophic systemic calciphylaxis in a nonuremic patient with systemic lupus erythematosus

Alexandra K. Rzepecki, BS, Michelle Park, MD, Bijal Amin, MD, Amanda Dunec, MD, Beth N. McLellan, MD, and Yevgeniy Balagula, MD

JAAD Case Reports (continued)

Case report of novel combination of anthralin and calcipotriene leading to trichologic response in alopecia areata

Loren Krueger, MD, Erik Peterson, BS, Jerry Shapiro, MD, and Kristen Lo Sicco, MD

Multiple self-healing palmoplantar carcinoma: An aberrance of the inflammasome

Christian Scheufele, DO, Harib H. Ezaldein, MD, Robert Rothbaum, MD, and Gregory R. Delost, DO

$\gamma\delta$ lymphomatoid papulosis type D: A histologic mimic of primary cutaneous $\gamma\delta$ T-cell lymphoma

Emilie Doré Badje, MD, Trilok Tejasvi, MD, and Alexandra Hristov, MD

Ustekinumab-induced subacute cutaneous lupus

Emma Tierney, MPharm, BMBS, MRCPI, Shivashini Kirthi, MB, Bch, BAO, MRCPI, Bart Ramsay, MBBS, MD, FRCPI, and Kashif Ahmad, MBBS, MRCPI, MD

Seborrheic keratosis-like lesions localized to tattoo

Joshua R. Bakke, MD, Stacy L. McMurray, MD, Aurora S.H. Peck, BS, Kristopher R. Fisher, MD, Stephen K. Tyring, MD, PhD, MBA, Peter L. Rady, MD, PhD, Tejesh S. Patel, MD, and Allison Jones, MD

Atrophoderma of Pasini and Pierini in a patient with concomitant psoriasis: Response to methotrexate

Gerhard Eichhoff, MD, PhD, FRACP

Evidence for immunoglobulin-mediated vasculitis caused by monoclonal gammopathy in monoclonal gammopathy of unclear significance prompting oncologic treatment

Christian Drerup, MD, Dieter Metzke, MD, Jan Ehrchen, MD, Carolin Mitschang, MD, Matthias Neufeld, MD, and Cord Sunderkötter, MD

Vismodegib for giant, locally advanced, basal cell carcinoma and its complex position in clinical practice

Fabiënne H.J. Koekelkoren, MD, Sofie L. Roodbergen, MD, Ewout M. Baerveldt, PhD, Alexander P.W.M. Maat, MD, Dominiek A. Monserez, PhD, Dirk J. Grünhagen, PhD, Marc A.M. Mureau, PhD, Ellen R.M. de Haas, PhD, Tamar E.C. Nijsten, PhD, and Marlies Wakkee, PhD

A novel homozygous mutation of *GJB2*—A new variant of keratitis-ichthyosis-deafness syndrome?

Issam Hamadah, MD, Mansoor Haider, FCPS (Dermatology), and Muzamil Chisti, MD
