

Please visit our companion journal, **JAAD Case Reports**, at www.jaadcasereports.org to read these exciting articles from the most recent issue.

An asymptomatic, enlarging, brown plaque

Fatema S. Esaa, BA, Pooja R. Shah, MD, Kathleen A. Mannava, MD, and Francisco Tausk, MD

Pustular palm eruption with axial skeleton involvement

Sino Mehrmal, BSN, Kory P. Schrom, MD, Harib H. Ezaldeen, MD, Robert Rothbaum, MD, and Gregory R. Delost, DO

A case of progressive lower leg edema

AnneLiese Smylie, MD, Jeffrey B. Tompkins, MD, Robert Gniadecki, MD, PhD, and Tawny Hung, MD

Successful management of extreme pain from delayed embolization after hyaluronic acid filler injection

Peter P. Rullan, MD, and Kachiu C. Lee, MD, MPH

Nivolumab in non—small cell lung cancer: A novel case of an erythema annulare centrifugum—like eruption

Polytimi Sidiropoulou, MD, Themis Sgontzou, MD, Ioanna Kostara, MD, Dimitrios Sgouros, MD, Barbara Theologi, MD, Eftychia Zouridaki, MD, PhD, Georgios Kontochristopoulos, MD, PhD, Dimitris Rigopoulos, MD, PhD, and Alexander J Stratigos, MD, PhD

A homozygous frameshift variant in the *KRT5* gene is compatible with life and results in severe recessive epidermolysis bullosa simplex

Rebecca K. Tryon, MS, MA, Jakub Tolar, MD, PhD, Sarah M. Preusser, MS, Megan J. Riddle, BA, Douglas R. Keene, PhD, Matthew Bower, MS, Bharat Thyagarajan, MD, PhD, MPH, and Christen L. Ebens, MD, MPH

Disseminated blastomycosis in a patient on pembrolizumab for metastatic melanoma

Ian Ferguson, MD, Meghan Heberton, MD, Leigh Compton, MD, Jesse Keller, MD, and Lynn Cornelius, MD

Radiation therapy for primary cutaneous $\gamma\delta$ T-cell lymphoma: Case report and literature review

Chris R. Kelsey, MD, Endi Wang, MD, PhD, Alexandra Stefanovic, MD, and Meenal Kheterpal, MD

Sclerosing lipogranulomatosis-induced chronic hypercalcemia and acute pancreatitis

Fiora L. McRae, BS, Stephan F. Duran, MS, Andrew Villanueva, MD, and Edward Prodanovic, MD

JAAD Case Reports (continued)

Morphea in a patient undergoing treatment with ustekinumab

Alexa B. Steuer, MPH, Erik Peterson, BS, Kristen Lo Sicco, MD, and Andrew G. Franks, Jr, MD

Pyoderma gangrenosum controlled with rituximab

Matthew DaCunha, MD, Spyros Siscos, MD, Malia Downing, MD, Isadore Tarantino, MD, and John Hall, MD

Imiquimod-induced effluvium after intravaginal application for treatment of cervical intraepithelial neoplasia

Carina Borst, MD, Christoph Grimm, MD, Adrian Tanew, MD, and Sonja Radakovic, MD

Remarkable response to dupilumab in a 5-year-old patient with severe, recalcitrant atopic dermatitis

Brian B. Johnson, MD, Lisa A. Beck, MD, and S. Shahzad Mustafa, MD

Recurrent erythema multiforme major in an 8-year-old patient with recurrence of herpetic gingivostomatitis and HLA-B*5801 haplotype: A causal or casual relationship?

Sara Grassi, MD, Grazia Bossi, MD, Giorgio A. Croci, MD, and Valeria Brazzelli, MD

Dupilumab in patients with chronic hepatitis B on concomitant entecavir

Karen Ly, BA, Mary Patricia Smith, BS, Quinn Thibodeaux, MD, Kristen Beck, MD, Tina Bhutani, MD, and Wilson Liao, MD

An unusual cause of bilateral orbital swelling: Immunoglobulin G4—related orbital disease arising in a patient with ulcerative colitis

Dawn Queen, BA, Amin A. Hedayat, MD, Cynthia Magro, MD, and Larisa J. Geskin, MD

Perioral *Demodex* folliculitis masquerading as perioral dermatitis in the peripartum period

Dema T. Alniemi, MD, and David L. Chen, MD

Subacute cutaneous lupus erythematosus induced by gemcitabine in 2 patients with pancreatic cancer

Matthew A. Cornacchia, BSc, Alexandra J. Coromilas, MD, Stephanie M. Gallitano, MD, Richard C. Frank, MD, and Charles L. Halasz, MD

Dupilumab for the treatment of severe photodermatitis

Mary Patricia Smith, BS, Karen Ly, BA, Quinn Thibodeaux, MD, Kristen Beck, MD, Timothy Berger, MD, Rita Khodosh, MD, Wilson Liao, MD, and Tina Bhutani, MD

JAAD Case Reports *(continued)*

A novel *KIT* mutation in a family with expanded syndrome of piebaldism

Issam Hamadah, MD, Muzamil Chisti, MD, Mansoor Haider, FCPS, Haya Al Dossari, PhD, Rawan Alhumaidan, PhD, Brian F. Meyer, PhD, and Salma M. Wakil, PhD

Concurrent presentation of tumid lupus with herpes zoster infection: A variant of Wolf isotopic response?

Anna Tappel, BS, Merrick Kozak, MD, Richard Flowers, MD, and Arturo Saavedra, MD, PhD, MBA
