## American Journal of Infection Control

### MESSAGE FROM APIC

**Customize your learning at APIC 2019** 479

### COMMENTARY

- **“Clean care for all—it's in your hands”; the May 5<sup>th</sup>, 2019, World Health Organization's SAVE LIVES: Clean Your Hands campaign** 480  
A Peters, T Borzykowski, E Tartari, C Kilpatrick, SHC Mai, B Allegranzi, and D Pittet

### MAJOR ARTICLES

- **The effect of incorporating covert observation into established overt observation-based hand hygiene promotion programs** 482  
E Yoo, L Ursua, R Clark, J Seok, J Jeon, and HB Kim
- **Beyond entry and exit: Hand hygiene at the bedside** 487  
JA Woodard, S Leekha, SS Jackson, and KA Thom
- **Hand hygiene before donning nonsterile gloves: Healthcare workers' beliefs and practices** 492  
J Baloh, KA Thom, E Perencevich, C Rock, G Robinson, M Ward, L Herwaldt, and HS Reisinger
- **A program to improve the hand hygiene compliance of Hong Kong preschoolers with an insight into their absenteeism** 498  
PPL Or, PTY Ching, and JWY Chung
- **Sleep safe in clean hands: Improving hand hygiene compliance in the operating room through education and increased access to hand hygiene products** 504  
ET Paul, M Kuszajewski, A Davenport, JA Thompson, and B Morgan
- How clean is “hygienically clean”: Quantitative microbial levels from samples of clean health care textiles across the United States** 509  
F Sands, and L Fairbanks
- Toilet plume aerosol generation rate and environmental contamination following bowl water inoculation with *Clostridium difficile* spores** 515  
KAN Aithinne, CW Cooper, RA Lynch, and DL Johnson
- Societal willingness to pay to avoid mortality and morbidity from *Clostridioides difficile* and carbapenem-resistant Enterobacteriaceae infections in the United States** 521  
A Sertkaya, H-H Wong, DH Ertis, and A Jessup
- Efficacy of laundering and tumble-drying in reducing microbial contamination of wastewater treatment plant worker coveralls** 527  
R Maal-Bared
- Alternative doffing strategies of personal protective equipment to prevent self-contamination in the health care setting** 534  
K Osei-Bonsu, N Masroor, K Cooper, C Doern, KK Jefferson, Y Major, S Adamson, J Thomas, I Lovern, H Albert, MP Stevens, G Archer, G Bearman, and M Doll

<b>An integrative care bundle to prevent surgical site infections among surgical hip patients: A retrospective cohort study</b>	540
WQ Mok, MJ Ullal, S Su, PL Yiap, LH Yu, SMM Lim, SYJ Ker, and J Wang	
<b>Overconfidence in infection control proficiency</b>	545
S Bushuven, J Juenger, A Moeltner, and M Dettenkofer	
<b>Improving infection control practices of nurse anesthetists in the anesthesia workspace</b>	551
MM Plemmons, J Marcenaro, MH Oermann, J Thompson, and CA Vacchiano	
<b>Evidence-based interventions to reduce obstetric-related infections at an army training facility</b>	558
ER McClellan, A Hover, M Moore, J Spaleny, S Singh, L Rodriguez, MB Lustik, and DJ Gloeb	
STATE OF THE SCIENCE REVIEW	
<b>Barriers to hand hygiene practices among health care workers in sub-Saharan African countries: A narrative review</b>	565
Y Ataiyero, J Dyson, and M Graham	
PRACTICE FORUM	
<b>Health care–associated infections studies project: An <i>American Journal of Infection Control</i> and National Healthcare Safety Network data quality collaboration case study: Bloodstream infection–patient injection into vascular access 2018</b>	574
K Puckett, K Allen-Bridson, D Godfrey, C Gross, JN Hebden, L Powell, and M-O Wright	
BRIEF REPORT	
<b>Clothing and shoes of personnel as potential vectors for transfer of health care–associated pathogens to the community</b>	577
A Kanwar, M Thakur, M Wazzan, S Satyavada, JL Cadnum, AL Jencson, and CJ Donskey	
COMMENTARY	
<b>Journal Club: Clothing and shoes of personnel as a potential vector for transfer of health care–associated pathogens to the community</b>	580
TL Wiemken, and H Hei	
BRIEF REPORTS	
<b><i>Serratia marcescens</i> sepsis outbreak caused by contaminated propofol</b>	582
F Cilli, A Nazli-Zeka, B Arda, OR Sipahi, S Aksit-Barik, N Kepeli, MA Ozinel, Z Gulay, and S Ulusoy	
<b>Who goes in and out of patient rooms? An observational study of room entries and exits in the acute care setting</b>	585
JW Arbogast, L Moore, T Clark, M Thompson, P Wagner, E Young, and AE Parker	
<b>Identifying the time to cure for patients with classic scabies after infection control intervention in acute care hospital settings</b>	588
J Park, SY Park, J Han, SY Lee, GE Kim, YS Jeong, JH Kim, EJ Lee, E Lee, and TH Kim	
<b>Does chlorhexidine mouthwash reduce the rate of oral colonization by gram-negative bacteria in patients with chemotherapy? A placebo-controlled trial</b>	591
LF Amador-Medina, JA Alvarez, AE Macias, JM Muñoz, JL Mosqueda, V Arreguin, and EM Collazo	

## COMMENTARY

- Examining health care personal protective equipment use through a human factors engineering and product design lens** 595  
H Salehi, PR Pennathur, JP Da Silva, and LA Herwaldt

## LETTERS TO THE EDITOR

- Entering infection prevention with a master of public health** 599  
F Steinkuller
- Environmental conditions and health care–associated infections in wards for noncritical patients** 599  
DC Limaylla, CMCB Fortaleza, and MdO Silva
