

PUBLICATIONS

NEW PUBLICATIONS

The following document is now published in the following pages:

SMFM Statement on Elective Induction of Labor in Low-Risk Nulliparous Women at Term: the ARRIVE Trial

SMFM Special Report: Substance use disorders in pregnancy: clinical, ethical, and research imperatives of the opioid epidemic: a report of a joint workshop of the Society for Maternal-Fetal Medicine, American College of Obstetricians and Gynecologists, and American Society of Addiction Medicine

*A listing of SMFM Consult Series that were published in other journals before #36 appeared in the June 2015 issue of AJOG is available at smfm.org/publications/.

For open access to all SMFM publications, please visit <https://www.smfm.org/publications>.

Society for Maternal-Fetal Medicine (SMFM) branded publications are developed and reviewed by the Publications Committee.

These documents have undergone an internal peer review through a multilevel committee process within SMFM. This review involves critique and feedback from the SMFM Publications and Document Review Committees and final approval by the SMFM Executive Committee. SMFM accepts sole responsibility for document content. SMFM publications do not undergo editorial and peer review by the American Journal of Obstetrics & Gynecology. The SMFM Publications Committee reviews publications every 18-24 months and issues updates as needed. Further details regarding SMFM publications can be found at www.smfm.org/publications. All questions or comments regarding the document should be referred to the SMFM Publications Committee at pubs@smfm.org.
