

Aims and Scope

Radiography is the official peer-reviewed journal of the Society and College of Radiographers and the European Federation of Radiographer Societies.

Radiography promotes evidence-based practice by disseminating high quality clinical, scientific and educational research related to all aspects of diagnostic and therapeutic radiography. We publish research articles, systematic and narrative reviews, editorials and letters of international relevance that advance knowledge and encourage innovation within radiography. We welcome radiography research submissions that embrace robust and innovative qualitative, quantitative and mixed method approaches.

Radiography is essential reading for researchers, radiographer practitioners*, radiography educators and student radiographers. We aim to influence clinical practice and patient care by informing practitioners, managers, leaders and policy makers working within or aligned to clinical imaging and radiation therapy services.

* Inclusive of all radiography practitioners including diagnostic and therapeutic radiographers, medical radiation technologists, radiologic technologists, radiation therapists, medical radiation practitioners, sonographers and nuclear medicine technologists.

Editor-in-Chief

Professor Julie Nightingale *Department of Allied Health Professions, Sheffield Hallam University, Sheffield, S10 2BP, UK*

Associate Editors

Dr Andrew England *University of Salford, UK (International)*

Dr Helen McNair *Royal Marsden NHS Foundation Trust and Institute of Cancer Research, UK (Radiotherapy)*

Dr Jonathan McNulty *University College Dublin, Dublin, Ireland (Europe)*

Editorial Board

D. Akroyd *(North Carolina State University, NC, U.S.A.)*

J. M. Cathcart *(Ulster University, Northern Ireland, U.K.)*

D. Chakraborty *(University of Pittsburgh, PA, U.S.A.)*

M. Hardy *(University of Bradford, U.K.)*

S. Hofvind *(Oslo and Akershus University College of Applied Sciences, Norway)*

P. Hogg *(University of Salford, U.K.)*

J. Kelly *(Countess of Chester Hospital, Chester, U.K.)*

K. Knapp *(University of Exeter, U.K.)*

E. Krupinski *(Emory University, U.S.A.)*

L. Lança *(Singapore Institute of Technology, Singapore)*

S. Mackay *(University of Liverpool, Liverpool, U.K.)*

J. McConnell *(Western Infirmary, Glasgow, U.K.)*

M. McEntee *(University of Sydney, Australia)*

P.G. McKenna *(Portrush, Northern Ireland, U.K.)*

N. Pongnapang *(Mahidol University, Siriraj Hospital, Bangkok, Thailand)*

H. Precht *(University of Southern Denmark, Denmark)*

L. Rainford *(University College Dublin, Ireland)*

D. Routsis *(Addenbrookes Hospital, Cambridge, U.K.)*

E. Seeram *(British Columbia Institute of Technology, Canada)*

B. Snaith *(Mid-Yorkshire Hospitals NHS Trust, University of Bradford, U.K.)*

K. Taylor *(Addenbrookes Hospital, Cambridge, U.K.)*

H. Warren-Forward *(University of Newcastle, NSW, Australia)*

M. Ying *(The Hong Kong Polytechnic University, Hong Kong)*

Representatives of the Society and College of Radiographers

Philip Cosson *(Teesside University, Teesside, U.K.)*

Gill Dolbear *(Canterbury Christ Church University, Canterbury, U.K.)*

Representative of the European Federation of Radiographer Societies

Frank Zarb *(University of Malta, Malta)*
