Editorials

Ventilatory setting in Adult Respiratory Distress Syndrome: Don't listen the sound of Sirens! But keep some dreams in your mind...
P. Pelosi and J.-M. Constantin 91

Therapeutic hypothermia after traumatic brain injury: Wrong hypotheses may lead to specious interpretations
P. Bouzat and J.-F. Payen 95

Prophylactic hypothermia for traumatic brain injury patients: It is not cool to be cooled
V. Vermeersch and O. Huet 97

Prophylaxis for stress related gastrointestinal bleeding in the ICU: Should we adjust to each patient's individual risk?
J.-P. Quenot, A. Dargent, A. Barkun and M. Bardou 99

Optimal amount of calories for critically ill patients
T. Lescot and J.C. Preiser 103

Caring for severe trauma patients in France. A call for a national strategy?
J. Guenezan, N. Marjanovic, B. Drugeon and O. Mimoz 105

Implementation of trauma systems: Not inventing the wheel over and over again!
M. Maegele and S.M. Galvagno 107

Severe patient injury associated with mechanical ventilators: a "never event"
K.B. Domino 109

Opioid free anaesthesia: Myth or reality?
H. Harkouk, D. Fletcher and H. Beloeil 111

Interchangeability of cardiac output measurements between oesophageal Doppler and pulse contour analysis is dependent on stroke volume
E. Lorne and M.-O. Fischer 113

Regional anaesthesia for eye surgery: Future development for education and quality
P. Cuvillon, A. Lannelongue and J. Ripart 115

Diagnosis of brain death, back to medical diagnosis!
J. Charpentier 117

Severe pelvic trauma: A complex and challenging situation
V. Bounes, V. Ramonda and T. Geeraerts 119

Original articles

Strategic proposal for a national trauma system in France
T. Gauss, P. Balandraud, J. Frandon, J. Abba, F.X. Ageron, P. Albaladejo, C. Arvieux, S. Barbois, B. Bijok, X. Bobbia, J. Charbit, F. Cook, J.-S. David, G.D.S. Maurice, J. Duranteau, D. Garrigue, E. Gay, T. Geeraerts, J. Ghelfi, S. Hamada, A. Harrois, H. Kobeiter, M. Leone, A. Levrat, S. Mirek, A. Nadjji, C. Paugam-Burtz, J.F. Payen, S. Perbet, R. Pirracchio, I. Plenier, J. Pottecher, S. Rigal, B. Riou, D. Savary, T. Secheresse, K. Tazarourte, F. Thony, J. Tonetti, C. Tresallet, P.-F. Wey, J. Picard and P. Bouzat 121

Continued on page ii

Epidemiology of out-of-hospital cardiac arrest: A French national incidence and mid-term survival rate study <i>G. Luc, V. Baert, J. Escutnaire, M. Genin, C. Vilhelm, C. Di Pompéo, C.E. Khoury, N. Segal, E. Wiel, F. Adnet, K. Tazarourte, P.-Y. Gueugniaud and H. Hubert</i>	131
Health related quality of life and predictive factors six months after intensive care unit discharge <i>N. Ferrand, C. Zaouter, B. Chastel, K. Faye, C. Fleureau, H. Roze, A. Dewitte and A. Ouattara</i>	137
Serious adverse events and deaths linked to poor ventilator use: A report of four closed claims <i>A. Theissen, V. Piriou, F. Fuz, M. Autran, P. Albaladejo and P. Trouiller</i>	143
Effect of fluid challenge on renal resistive index after major orthopaedic surgery: A prospective observational study using Doppler ultrasonography <i>F. Ferré, P. Marty, C. Folcher, M. Kurrek and V. Minville</i>	147
Comparison of Proaq/Pulsioflex® and oesophageal Doppler for intraoperative haemodynamic monitoring during intermediate-risk abdominal surgery <i>G. Weil, C. Motamed, A. Eghiaian, X. Monnet and S. Suria</i>	153
Reviews	
Evolution and organisation of trauma systems <i>J.S. David, P. Bouzat and M. Raux</i>	161
Opioid-free anaesthesia. Why and how? A contextual analysis <i>P. Forget</i>	169
Clinical implications of intravenous drug incompatibilities in critically ill patients <i>M. Benlabeled, M. Perez, R. Gaudy, S. Genay, D. Lannoy, C. Barthélémy, P. Odou, G. Lebuffe and B. Décaudin</i>	173
Letters to the Editor	
Predictors of a successful medial canthus block for eye surgery <i>G. Guerrier, S. Rondet, D. Hallal, J. Levy and C. Baillard</i>	181
Learning medial canthus retrobulbar anaesthesia for eye surgery: Ophthalmic surgeons versus anaesthetists <i>G. Guerrier, P.-R. Rothschild, M. Lehmann, F. Behar-Cohen and C. Baillard</i>	183
Ambulatory paediatric surgery in French non-paediatric surgical ambulatory units: Results of a nationwide survey: The OPERA study <i>C. Ecoffey, F. Aubrun, J.-L. Bosson and P. Albaladejo</i>	185
Adherence to the law in brain death diagnosis: A national survey <i>E. Chambade, M. Nguyen, A. Bernard, A. Nadji and B. Bouhemad</i>	187
Ultrasound-guided erector spinae plane block provides effective perioperative analgesia and anaesthesia for thoracic mass excision: A report of two cases <i>S. Cesur, A.N. Ay, A.M Yayik and M. Emin Naldan</i>	189
Ultrasound-guided transversus abdominis plane (TAP) block in pedicled groin flap <i>C. Nguyen, Q. Mathais, M. Cardinale, C. Drouin, B. Prunet and E. Meaudre</i>	191
Snake envenomations in French Guiana: First clinical assessment of an antivenom imported from Mexico <i>A. Nadaud, F. Perotti, L. de Haro and D. Boels</i>	193
A rare case of super-refractory epileptic status in pregnant woman: Schizencephaly <i>N. Jbili, K. Mounir, H. Kechna, L. Bibiche, J. Laoutid, A. Diai, I. Traibi and M.A. Hachimi</i>	195
Guidelines	
Early management of severe pelvic injury (first 24 hours) <i>P. Incagnoli, A. Puidupin, S. Ausset, J.P. Beregi, J. Bessereau, X. Bobbia, J. Brun, E. Brunel, C. Buléon, J. Choukroun, X. Combes, J.S. David, F.-R. Desfemmes, D. Garrigue, J.-L. Hanouz, I. Plénier, F. Rongieras, B. Vivien, T. Gauss, A. Harrois, P. Bouzat and E. Kipnis</i>	199
