Editorials

Does intermittent pneumatic compression PREVENT deep vein thrombosis in the ICU?
K.B. Laupland, A. Tabah, C. Kelway and J. Lipman 303

Vena Cava filters in severely-injured patients: One size does not fit all
K.M. Ho, A. Holley and J. Lipman 305

Iris and PreVent trial: Pioneers to complete the current guidelines?
S. Bar, A. James and B. Debaene 309

Neuromuscular blocking agents as part of lung-protective strategy in severe ARDS patients
L. Papazian, S. Hraiech, L. Cazenave and J.-M. Forel 311

Short-term and long-term prognosis after cardiac surgery: Do anaesthetics protect against ischemia-reperfusion injury?
O. Abou-Arab, A. Ly, I. Amrouche, S. Andrei and N. Mongardon 315

The EPOCH trial: A non-resolved dilemma between ambition and pragmatism?
S. Molliex, J. Lanoiselée and V. Bruckert 319

Learning from the EPOCH trial (Editorial). What we have learnt from a trial of an intervention to improve survival following emergency laparotomy
T. Stephens and R.M. Pearse 321

Consider brain perfusion imaging rather than just the delay from symptoms onset to indicate reperfusion strategies after stroke: Implications for perioperative care
T. Geeraerts, S. Mrozek, C. Monet and J.-M. Olivot 323

High-fidelity simulation in airway management: Aim or tool towards skills and safety?
M. Le Guen and F. Martin 327

Neurotoxicity of anaesthetics on developing brain: a relevant question or just a “bias”?
S. Dahmani and V. Laudénbach 329

Obstetric critical care patients in France: Admission shift from general intensive care units (ICU) to general high-dependency units (HDU) and now to obstetric high-dependency units (OHDU)?
D. Benhamou, F. Fuchs and F.J. Mercier 331

Augmented renal clearance: A real phenomenon with an uncertain cause
J.P. Baptista, J.A. Roberts and A.A. Udy 335

Is artificial intelligence (AI) at the doorstep of Intensive Care Units (ICU) and operating room (OR)?
X. Chaplain and O. Huet 337

Big data are here to stay!
J.-L. Vincent and J. Creteur 339

Original articles

The effect of playing video games on fiberoptic intubation skills
Aysun Ankaý Yilbas, Ozgur Canbay, Basak Akca, Filiz Uzumcugil, Asli Melek, Mert Calis, İbrahim Vargel 341

Continued on page ii

Etomidate-induced hypotension: a pathophysiological approach using arterial elastance <i>O. Abou Arab, M.O. Fischer, A. Carpentier, C. Beyls, P. Huette, A. Hchikat, A. Benammar, B. Labont, Y. Mahjoub, S. Bar, P.-G. Guinot and E. Lorne</i>	347
Choosing appropriate size of I-Gel® for initial success insertion: a prospective comparative study <i>G. Guerrier, C. Agostini, M. Antona, F. Sponzini, A. Paoletti, I. Martin, J.-M. Ekherian and C. Baillard</i>	353
The effect of regional anaesthesia versus general anaesthesia on behavioural functions in children <i>A.R. Khochfe, M. Rajab, F. Ziade, Z.Z. Naja, A.S. Naja and Z.M. Naja</i>	357
Maternal admissions to intensive care units in France: Trends in rates, causes and severity from 2010 to 2014 <i>Y. Barry, C. Deneux-Tharoux, M. Saucedo, V. Goulet, I. Guseva-Canu, N. Regnault and A.A. Chantry</i>	363
Augmented renal clearance in critically ill trauma patients: A pathophysiologic approach using renal vascular index <i>C. Carrie, A. Lannou, S. Rubin, H. De Courson, L. Petit and M. Biais</i>	371
Reviews	
Big data and targeted machine learning in action to assist medical decision in the ICU <i>R. Pirracchio, M.J. Cohen, I. Malenica, J. Cohen, A. Chambaz, M. Cannesson, C. Lee, M. Resche-Rigon and A. Hubbard</i>	377
Letters to the Editor	
Prolonged continuous wound infiltration with a local anaesthetic after total mastectomy: pharmacokinetics and preliminary results on postoperative pain <i>D. Francon, C. Riff, O. Blin, M. Cohen and R. Guilhaumou</i>	385
Tumescent local anaesthesia for breast cancer surgery in elderly women: about 6 cases <i>C. Riff, A. Diaz, O. Blin, M. Leone, R. Guilhaumou and A. Bourgoin</i>	387
Can intraoperative Surgical Pleth Index values be predictive of acute postoperative pain? <i>L. Bapteste, A.S. Szostek, D. Chassard, F.P. Desgranges and L. Bouvet</i>	391
Confirmation of endotracheal tube placement with ultrasound – direct visualisation with anterior neck compression and continued surveillance <i>J.S. Kao, D. Mao, R.-F. Wang, C.-F. Chong and K.-C. Chen</i>	393
Continuous ultrasound guided erector spinae plane block for the management of chronic pain <i>A. Ahiskalioglu, H.A. Alici, B. Ciftci, M. Celik and O. Karaca</i>	395
Ketamine infusions for sedation in ICU <i>G. Mion</i>	397
Ketamine infusion for sedation in ICU, response to Dr Mion <i>S. Perbet, T. Godet and J.-M. Constantin</i>	399
Is variability a natural phenomenon in patients, providers and institutions? <i>R. Nadeem and J. Shafaq</i>	401
Reply to the letter to the editor <i>J. Rinehart, P. Van der Linden and A. Joosten</i>	403
Guidelines	
Revision of expert panel's guidelines on postoperative pain management <i>F. Aubrun, K. Nouette-Gaulain, D. Fletcher, A. Belbachir, H. Beloeil, M. Carles, P. Cu villon, C. Dadure, G. Lebuffe, E. Marret, V. Martinez, M. Olivier, N. Sabourdin and P. Zetlaoui</i>	405
