

Techniques in Vascular and Interventional Radiology

Volume 22 □ Number 2 □ June 2019

Yttrium-90 Radioembolization
Ripal T. Gandhi, MD, FSIR, FSVM

**Introduction to Issue on Yttrium-90
Radioembolization**

Ripal T. Gandhi

41

**Radical Radial: Pearls and Pitfalls in Transradial
Yttrium-90 Liver-Directed Therapy**

John Chung, Anastasia Hadjivassiliou,
Darren Klass, and David Liu

42

**Radiation Segmentectomy and Radiation
Lobectomy: A Practical Review of Techniques**

Anuj Malhotra, David M. Liu, and
Adam D. Talenfeld

49

**Management of High Hepatopulmonary Shunts
in the Setting of Y90 Radioembolization**

Brian J. Schiro, Edgar St. Amour,
Christopher Harnain, and Ripal T. Gandhi

58

**Red Flags, Pitfalls, and Cautions in
Y90 Radiotherapy**

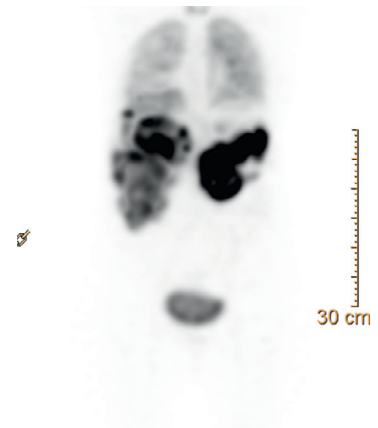

Sergio Klimkowski, Jennifer C. Baker,
and Daniel B. Brown

63

**Patient Selection and Clinical Outcomes of
Y90 in Hepatocellular Carcinoma**

Eric Wehrenberg-Klee, Ripal T. Gandhi,
and Suvranu Ganguli

70

Evidence-Based Integration of Yttrium-90 Radioembolization in the Contemporary Management of Hepatic Metastases from Colorectal Cancer	
David S. Wang, John D. Louie, and Daniel Y. Sze	74
Y90 Clinical Data Update: Cholangiocarcinoma, Neuroendocrine Tumor, Melanoma, and Breast Cancer Metastatic Disease	
Siddharth A. Padia	81
Yttrium-90 Complications: Prevention and Management	
Joseph J. Titano, Edward Kim, and Rahul S. Patel	87
Technical Aspects and Practical Approach Toward Same-Day Y90 Radioembolization in the Management of Hepatocellular Carcinoma	
Ahmed Gabr, Rehan Ali, Ali Al Asadi, Ronald Mora, Samdeep Mouli, Ahsun Riaz, Riad Salem, and Robert J. Lewandowski	93
Y90 Radioembolization Dosimetry: Concepts for the Interventional Radiologist	
Beau Bosko Toskich and David M. Liu	100
Yttrium-90 Radioembolization After Local Hepatic Therapy: How Prior Treatments Impact Patient Selection, Dosing, and Toxicity	
Jonathan Kessler and John J. Park	112
