

## Editor's note February 2019

© Springer Nature B.V. 2019

Dear Reader,

### Concerns the reviewers in 2018

In 2018, a total number of 680 reviewers participated in the review process. We are really very thankful for all the hard work that the reviewers put into the review process. There is an enormous time pressure on each of our reviewers to do this work in addition to their regular research and clinical activities. Below there are two lists: (1) the 53 reviewers who completed at least four reviews in 2018, and (2) the names

of the remaining 627 reviewers, who completed at least one review in 2018.

I wish you much pleasure in reading the *International Journal of Cardiovascular Imaging* in 2019 and each year following, and encourage you to submit your best manuscripts to our Journal.

Thank you so much, also on behalf of our Associate and Adjunct Editors, our Editorial Board, and the Editorial staff, Johan H.C. Reiber, PhD  
Editor-in-Chief
