

ANNOUNCEMENTS

GRAMMER *European Spine Journal* Award 2019

For Basic Science and Applied Research

In order to encourage basic science research in the field of spinal disorders, the *European Spine Journal* is proud to announce the **GRAMMER *European Spine Journal* Award for Basic Science and Applied Research (20,000 Euro)**.

This is the highest amount of an award in spinal research, worldwide. Each paper submitted to the *Journal* dealing with basic science qualifies automatically for this award as soon as it has been published. The winning paper will be selected at the end of each academic year (for the next time in 2018/2019) and will be announced in one of the following issues. The GRAMMER Award will also be presented at the next EUROSPINE meeting. At least one author of the winning paper must attend at his own expense the EUROSPINE 2019 meeting, which is being held in Helsinki (Finland) from October 16–18, to present the paper and receive the award.

The winning papers of the **GRAMMER *European Spine Journal* Award** for the best basic science and applied research paper published in the *European Spine Journal* in the last academic year 2017/2018 have been:

A more realistic disc herniation model incorporating compression, flexion and facet-constrained shear: a mechanical and microstructural analysis.

Part I: Low rate loading

By **Kelly R. Wade, Meredith L. Schollum, Peter A. Robertson, Ashvin Thambyah and Neil D. Broom**

Eur Spine J (2017) 26:2616–2628

Part II: High rate or ‘surprise’ loading

By **Zhi Shan, Kelly R. Wade, Meredith L. Schollum, Peter A. Robertson, Ashvin Thambyah and Neil D. Broom**

Eur Spine J (2017) 26:2629–2641

Congratulations from GRAMMER AG, the *European Spine Journal* and the award committee:

Margareta Nordin, Romorantin, France
Max Aebi, Bern, Switzerland
Mauro Alini, Davos, Switzerland
Dimitris Kletsas, Athens, Greece
Kjell Olmarker, Gothenburg, Sweden
Hans-Joachim Wilke, Ulm, Germany (Chairman)

Oswestry Disability Index website and translations

We have established a website for the ODI. One of its functions is to carry validated translations of the instrument for use by non-English speakers. Currently we have versions in 13 languages. We are sure there are others we have not listed. We need to know the version number that has been translated, validation process and any publications that have used it.
