

Nicholas George Farkas, MBBS, MRCS, studied at Newcastle University, graduating in 2012. Following completion of core surgical training in South West London and gaining membership in the Royal College of Surgeons in 2016, he is now a general surgical registrar trainee in the East of England Deanery. After a productive year working at West Middlesex University Hospital, Mr. Farkas is currently working at Basildon University Hospital in the general and colorectal surgery department. His research interests include colorectal and emergency surgery.

Ted Joseph Pole Welman, BSc (hons.) MBBS, MRCS, graduated from Imperial College School of Medicine in 2014. He undertook his foundation and core surgical training in London, obtaining his membership of the Royal College of Surgeons in 2018. He is currently working at The Royal London Hospital in the plastic surgery department and is due to apply for higher plastic surgical training in 2019. His current research interests include vascularized composite allotransplantation and tissue engineering.

Talisa Ross, MBChB, BSc (hons), is currently working as a Foundation Year 2 Doctor at St Mary's Hospital, Imperial College Healthcare NHS Foundation Trust. She is also undertaking a part-time Master's in Surgical Innovation at Imperial College, London. She completed her undergraduate training at the University of Birmingham, with a BSc in Anatomy, Developmental and Human Biology from King's College, London. She is now applying for Core Surgical Training and has a particular research interest in robotic surgery.

Sarah Brown, MB, BCh, BAO, BSc (hons), is a Foundation Year 2 doctor currently working at the Royal Marsden Hospital and from 2019 at Chelsea and Westminster Hospital. Sarah graduated from Queen's University, Belfast in 2017 and went on to complete her Foundation Year 1 at West Middlesex University Hospital. Her clinical and research interests revolve primarily around breast cancer and breast surgery.

Jason John Smith, MD, DMI, FRCS (Gen. Surg), is a Consultant Surgeon at West Middlesex University Hospital in West London. Has a special interest in general, colorectal, and laparoscopic surgery. His specific interests include the treatment of inflammatory bowel disease (IBD), ileal pouch surgery, colorectal cancer, endoscopy, reconstructive pelvic surgery, cholecystectomy, and hernia repair. He runs a research unit at WMUH with Imperial College and Chelsea & Westminster Hospital colleagues. His principal research interests are in risk adjustment in surgery, patient outcomes, colorectal cancer, and IBD.

Nikhil Pawa, MD, LLM, MSc, FRCS, is a consultant colorectal and general surgeon working at West Middlesex University Hospital. He completed specialist registrar training in North West London and undertook research at St. Marks Hospital. Laparoscopic surgery, endoscopy, as well as education and training reflect his current work interests. His research interests relate to screening of bowel cancer, neuroendocrine tumours of the bowel, inflammatory bowel disease, and colorectal cancer.
