<https://doi.org/10.1007/s00330-018-5412-4>

The original version of this article, published on 09 April 2018, unfortunately contained a mistake. The following correction has therefore been made in the original: The presentation of Fig. 2 was incorrect, “Cotton ball sign” was mistakenly named “Polka-dot sign”. The corrected figure is given below.

“Cotton ball sign”: Fuzzy gray dots (white arrow) in the thickened GB wall or dotted outer border (open arrowhead) of the inner enhancing layer on CE-CT

Fig. 2 Schematic diagram of the cotton ball sign. GBWT = gallbladder wall thickening; GB = gallbladder; CE-CT = contrast-enhanced computed tomography
