## Retraction notice to “Homocysteine as a predictive factor for hip fracture in stroke patients” Bone, Volume 36, Issue 4, April 2005, Pages 721-726

Yoshihiro Sato<sup>a</sup>, Yoshiaki Honda<sup>a</sup>, Jun Iwamoto<sup>b</sup>, Tomohiro Kanoko<sup>c</sup>, Kei Satoh<sup>d</sup><sup>a</sup> Department of Neurology, Futase Social Insurance Hospital, Iizuka 820-0054, Japan<sup>b</sup> Department of Sports Medicine, Keio University School of Medicine, 35 Shinanomachi, Shinjuku-ku, Tokyo 160-8582, Japan<sup>c</sup> Department of Rehabilitation Medicine, Institute of Brain Science, Hirosaki University School of Medicine, Hirosaki 036-8562, Japan<sup>d</sup> Department of Vascular Biology, Institute of Brain Science, Hirosaki University School of Medicine, Hirosaki 036-8562, Japan

This article has been retracted: please see Elsevier Policy on Article Withdrawal (<https://www.elsevier.com/about/our-business/policies/article-withdrawal>).

This article has been retracted at the request of the Editor-in-Chief and Hirosaki University.

Hirosaki University informed the journal that, prior to his passing,

Dr Sato had wished to retract this paper due to data fabrication and honorary authorship.

Hirosaki University noted that none of the co-authors participated in any misconduct and appeared as authors on an honorary basis only. Attempts have been made to confirm this with the co-authors listed but no response has been received.
