Retraction notice

Retraction notice to "High prevalence of vitamin D deficiency and reduced bone mass in elderly women with Alzheimer's disease" Bone Volume 23, Issue 6, December 1998, Pages 555-557

Y. Sato^a, T. Asoh^a, K. Oizumi^b

^a Department of Neurology, Futase Social Insurance Hospital, Iizuka, Japan

^b First Department of Internal Medicine, Kurume University School of Medicine, Kurume, Japan

This article has been retracted: please see Elsevier Policy on Article Withdrawal (<http://www.elsevier.com/locate/withdrawalpolicy>).

This article has been retracted at the request of the Editor-in-Chief.

The Journal has been made aware of concerns regarding the integrity of the data and ethical approval for this study. Despite contact with Futase Hospital and Kurume University in place of the co-authors, who could not be located, the Journal was unable to confirm whether

ethical approval had been granted for this study and has been unable to confirm the authorship of this paper. The journal was also unable to interrogate the data presented in this paper as no records have remained of this study.

This constitutes a violation of our publishing policies and publishing ethics standards.
