The authors regret that there is a mistake in the abstract section, “Using the optimal cut-off score of HEI (11/12), the sensitivity and specificity were 0.880 and 0.766, respectively”. It should be stated as: “Using the optimal cut-off score of HEI (≥ 11), the sensitivity and specificity were 0.880 and 0.766, respectively”.

The authors would like to apologise for any inconvenience caused.
