Wang DM, Morgan FC, Besaw RJ, Schmults CD. Dermatologists are the primary treating physicians of skin cancer in the United States Medicare population. *J Am Acad Dermatol*. 2018;79(3):578-580.

The above article contains a figure of a graph (Fig 1). The scale of the current graph in print uses a break in the y axis that may lead to misinterpretation of the data. The revised figure provides a new scale without a break in the y axis that will enhance our message. No changes to the data were made. A corrected version of the graph in Fig 1, in the appropriate scale, is found here.

Fig 1. Percentage of skin cancer treatment procedures performed annually in the US Medicare population by physician specialty and geographic region, 2012-2015.

Li Y, Kulkarni M, Trinkaus K, Cornelius IA. Second primary melanomas: Increased risk and decreased time to presentation in patients exposed to tanning beds. *J Am Acad Dermatol*. 2018;79(6):1101-1108.

In the article above, there is a typo in Fig 3 and its legend. Tanning bed exposure should read Yes:27: No:61.

Miguel-Gómez L, Rodrigues-Barata AR, Molina-Ruiz A, et al. Folliculitis decalvans: Effectiveness of therapies and prognostic factors in a multicenter series of 60 patients with long-term follow-up. *J Am Acad Dermatol*. 2018;79(5):878-883.

The conflict of interest line for the article above was incomplete for author Martorell-Calatayud. It should read “Dr Martorell-Calatayud reports honoraria acting as speaker and/or consultant from Pfizer, Novartis, ABbVie, Jansen Cilag, Lilly, Leo Pharma, Merk Sharp and Dohme, Isdin, Viñas, Celgene, Almirall, Pierre Fabre, La Roche Posay and UCB.”
