## Corrigendum

# Corrigendum to: Correlates of Long-Acting Reversible Contraception versus Sterilization Use in Advanced Maternal Age [Annals of Epidemiology 28/7 (2018) 447-451]

Shelby N. Apodaca, MD <sup>a, \*</sup>, Melissa D. Mendez, MD <sup>a</sup>, Sheralyn S. Sanchez, MPH <sup>a</sup>, Zuber D. Mulla, PhD <sup>a, b</sup>

<sup>a</sup> *Obstetrics and Gynecology, Paul L. Foster School of Medicine, Texas Tech University Health Sciences Center El Paso, El Paso*

<sup>b</sup> *Julia Jones Matthews Department of Public Health, Texas Tech University Health Sciences Center, Lubbock*

The authors regret that in the article by Apodaca SN, Mendez MD, Sanchez SS, Mulla ZD. “Correlates of long-acting reversible contraception versus sterilization use in advanced maternal age.” (Ann Epidemiol 2018;28:447-451), an error was noted in the Methods section.

In the last paragraph of the *Data analysis* section, the following sentence, “The DOMAIN statement (rather than the BY statement) was used to properly calculate odds ratios (ORs) for the two domains described previously.” should read, “The NOMCAR option, rather than the DOMAIN statement, was used to perform a domain analysis.”

The authors would like to apologise for any inconvenience caused.
