## Corrigendum

## Corrigendum to “Estimates of the current and future burden of lung cancer attributable to residential radon in Canada” [Prev. Med. 122 (2019) 100–108]

Priyanka Gogna<sup>a</sup>, Tasha A. Narain<sup>a</sup>, Dylan E. O'Sullivan<sup>a</sup>, Paul J. Villeneuve<sup>b</sup>, Paul A. Demers<sup>c</sup>, Perry Hystad<sup>d</sup>, Darren R. Brenner<sup>e,f,g</sup>, Christine M. Friedenreich<sup>e,f,g</sup>, Will D. King<sup>a,\*</sup>, on behalf of the ComPARE Study Group

<sup>g</sup> Department of Community Health Sciences, Cumming School of Medicine, University of Calgary, Calgary, Alberta, Canada

The authors regret to inform on three corrections to the relevant paper:

1. In Table 1, there is missing information for Tomasek, 2012. The “Exposure basis” column should have read “Dosimeter”, and the “Exposure Window” should have read “5–34 years” for this study.
2. The caption for Fig. 1 should read: “Estimated RR of lung cancer associated with 100Bq/m<sup>3</sup> increase in exposure to residential

radon.” The current version incorrectly states that only North American studies are included in the figure.

3. There should be a footnote at the bottom of Fig. 1 that reads:

“\*Pooled analyses of the relationship between residential radon and lung cancer”.

The authors would like to apologise for any inconvenience caused.
