Annals of Epidemiology

Corrigendum

Corrigendum to “Improving surveillance for the hidden half of fetal-infant mortality: a pilot study of the expansion of the Pregnancy Risk Assessment Monitoring System to include stillbirth” *Annals of Epidemiology* 26 (2016) 401–404

Lauren Christiansen-Lindquist, PhD^{*}, Kashika Sahay, MPH, Carol J.R. Hogue, PhD

Department of Epidemiology, Rollins School of Public Health, Emory University, Atlanta, GA

The authors regret that a funding source was inadvertently excluded from the original publication. The complete listing of funding support is as follows: This study was supported by the Division of Reproductive Health, Centers for Disease Control and Prevention, the Jules and Uldeen Terry Endowment, the Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD) of the National Institutes of Health (NIH) T32 Predoctoral Training Program in Reproductive, Perinatal, and Pediatric Epidemiology (Grant #T32HD052460), and the Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS) under the Maternal and Child Health Epidemiology Doctoral Training Program (Grant #T03MC07649). This content and conclusions are those of the author and should not be construed as the official position or policy of, nor should any endorsements be inferred by HRSA, HHS or the U.S. Government.

The authors would like to apologise for any inconvenience caused.
