Corrigendum

Corrigendum to “The incidence of hip fracture and mortality rate after hip fracture in Korea: A nationwide population-based cohort study” [Osteoporosis Sarcopenia 5 (2019) 38–43]

Sangmo Hong ^{a,*}, Kyungdo Han ^b^a Department of Endocrinology and Metabolism, Hallym University Dongtan Sacred Heart Hospital, Hwasung, South Korea^b Department of Biostatistics, College of Medicine, The Catholic University of Korea, Seoul, South Korea

The authors regret that the standardized incidence rate for age (70–79) in Table 1 published in this paper was incorrect. The correct values are shown below in red.

The authors would like to apologize for any inconvenience caused.

Table 1

The trend of the hip fracture from 2006 to 2015 by age and sex.

	Hip fracture (S720, S721), Hospitalization									
	2006	2007	2008	2009	2010	2011	2012	2013	2014	2015
Total
