Message from APIC

Customize your learning at APIC 2019

APIC 2019 is your chance to build foundational skills or improve your expertise on emerging issues. No matter where you are in your career, you can create a customized schedule to make the most of your time in Philadelphia by attending sessions most applicable to you and your day-to-day responsibilities.

APIC's 46th Annual Conference offers more than 100 educational sessions, providing practical solutions and innovative ideas to IPs at any facility and at any stage of their career. It's the must-attend event for IPs from around the globe—and registration is still open! To join us, simply visit apic.org/APIC2019 and register today.

Our interactive sessions are divided into learning tracks to help you understand the core competencies covered. Choose from 12 different tracks, including:

- Antimicrobial Stewardship, Resistance, and Emerging Pathogens
- Antisepsis, Disinfection, and Sterilization
- Education, Training, and Competencies
- Environment of Care, Construction, and Remediation
- Healthcare Worker Safety and Occupational Health
- Implementation Science and Research
- Leadership and Professional Development
- Outbreak Investigation, Public Health, and Health Policy

- Quality Assurance and Performance Improvement
- Surveillance and Technology
- CDC
- NHSN

Plus, you can make the most of your time away from your facility (and increase your CE credits!) by joining us a day early for one of our pre-conference workshops:

- CIC® Certification Preparatory Course
- Survey Readiness Workshop—New in 2019!
- Consulting 101: How to Get Started Now

To create your own customized conference experience, visit apic.org/APIC2019 and click on “LEARN” to take advantage of the APIC 2019 Program Planner. Plan out your three (or four, if you're joining us early!) days in Philadelphia.

Don't forget—there's still time to join us in Philly, June 12–14!! Register online at apic.org/APIC2019. *Group registration discounts are also available for groups of four or more.*

Come to Philadelphia in June for ideas, engaging learning experiences, and to increase your competencies. Leave inspired to advance our vision of healthcare without infection.
