It has come to the attention of the journal that Table 2 of this manuscript omitted the row which included information relevant for Experiment 1. The correct table is shown below. The journal regrets this publication error in the final manuscript.

Table 2 Summary of results from Experiments 1 and 2. Q_0 : demand intensity. α : demand elasticity. IC: isolated condition. SE: social enrichment. EE: environmental enrichment. Between: Between-session dose-reduction. Within: within-session dose-reduction.

Experiment	Acquisition of Self-administration Results	Behavioral Economics (Maintenance) Results	
1	No sex difference in infusions earned	α Between < Within Male \approx Female	Q_0 Between > Within Male < Female
2	Main effect of housing on total infusions earned Environmental enrichment decreased infusions	Male > Female Male EE < Male IC, Male EE < Male SE Female IC < Female EE	Male < Female IC > SE, IC > EE
