The authors regret to inform that the result of weight gain (WG) for LF1200 treatment in Table 1 of this article was accidentally wrongly expressed as 1 ± 15.76 , when the correct data should be 101 ± 15.76 . There is also no significant difference between the WG results in Table 1, and the letter **a** in the third row and third column (LF400) should be deleted.

In Table 2, the standard errors (S.E) for the results of the WBC and RBC are wrongly expressed. The correct standard errors for WBC and RBC results are shown below:

Table 2

Parameters	Control	LF400	LF800	LF1200
WBC ($\times 10^3 \mu\text{l}^{-1}$)	5.96 ± 0.16	6.63 ± 0.10	7.00 ± 0.22	5.90 ± 0.85
RBC ($\times 10^6 \mu\text{l}^{-1}$)	2.54 ± 0.61	2.85 ± 0.81	2.85 ± 0.48	2.84 ± 0.42

The authors would like to apologise for any inconvenience caused.
