Perceived Workplace Health and Safety Climates: Associations With Worker Outcomes and Productivity

Abigail S. Katz, PhD, Nico P. Pronk, PhD, Deborah McLellan, PhD, Jack Dennerlein, PhD, Jeffrey N. Katz, MD, MSc
(see page 487)

This article has been chosen to participate in the AJPM CME program. Please read and follow the instructions below:

Educational objectives

After reading this article, the learner should be able to:

1. Discuss the effect of workplace climate on worker health behaviors (i.e., alcohol use, nutrition, physical activity, sleep, and tobacco use) and worker outcomes (i.e., abuse, back pain, depression, job satisfaction, life satisfaction, self-perceived general health), and be able to answer the question, for which behaviors and outcomes were statistically significant associations observed?
2. State the effect of workplace climate on employer outcomes (i.e., worker productivity).
3. Describe the application of a conceptual model in exploring complex pathways to worker well-being.

Accreditation Statement

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the American College of Preventive Medicine and the American College of Lifestyle Medicine. The American College of Preventive Medicine is accredited by the ACCME to provide continuing medical education for physicians.

Credit Designation

ACPM designates this enduring material for a maximum of 1 *AMA PRA Category 1TM* Credit per exam. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

ACPM is not accredited to offer credit to non-physicians. To determine if activities designated for *AMA PRA Category 1TM* Credit are acceptable for your licensing or certification needs, please contact your credentialing body directly.

Disclosures

In accordance with the disclosure policy of the American College of Preventive Medicine (ACPM) and the American Journal of Preventive Medicine (AJPM), as well as the standards set forth by the Accreditation Council of Continuing Medical Education (ACCME), authors and any individuals in a position to control the content of a CME activity are required to disclose relevant financial relationships in any amount with commercial interests (within the past 12 months).

The authors, Abigail S. Katz, Nico P. Pronk, Deborah McLellan, Jack Dennerlein, and Jeffrey N. Katz, have disclosed that no relevant financial relationships exist.

Term of approval

October 2, 2019–October 2, 2022

Estimated time to complete this activity is 1 hour.

Instructions to receive CME credit

Once you have read the CME article, please visit www.ajpmonline.org/cme to complete the CME exam (with a score of at least 70%) and the CME evaluation survey. You will be able to download your CME certificate and will also receive an email with a link to your certificate.

Privacy policy

ACPM collects personal information from participants in this online activity for purposes of assigning CME credit only. We will not share or sell your contact information, and your answers to quizzes and feedback forms will be kept confidential.
