

CORRECTION

In the January 2019 issue of the *Journal of Vascular Surgery: Venous and Lymphatic Disorders*, the article by Suzuki et al (Suzuki Y, Sakuma H, Yamazaki S. Evaluation of patency rates of different lymphaticovenous anastomosis techniques and risk factors for obstruction in secondary upper extremity lymphedema. *J Vasc Surg: Venous and Lym Dis* 2019;7:113-7) contained an error in the legend of Figure 1. The explanation of the asterisk in this legend should read "Lymphatic vessel" and not "Vessel duct" as published.
