Editorial

Volume 42-Welcome editorial

Welcome readers to volume 42 of Musculoskeletal Science and Practice. There is as usual a range of very interesting articles for you to engage with in your spare time! As readers of the journal you will have noticed that we have been publishing in volumes 39,40 and 41 a number of articles focusing on Concussion. Importantly in this volume 42 we have also included a further and final selection of articles on Concussion as well as a range of other valuable articles. All the Concussion articles from all the 4 vol will be published in a Special Issue on Concussion which will be available on our journal website. Professor Deborah Falla has brought together, and edited this Special Issue and

has written an editorial in collaboration with Emeritus Professor Gwendolen Jull, on Concussion and has included an overview of the Special Issue. You will find the editorial in this volume and in it you will find links to the Special Issue.

I hope you enjoy this volume and the Special Issue on Concussion.

Prof Emerita, Editor in Chief

Ann P. Moore
