Resilient Teams and Organizations | Wednesday, April 10 | 1:00–4:30 p.m.

Nurses are at the heart of health care, and some are struggling with fatigue, stress, and burnout. This workshop will provide strategies designed to support nurse leaders' resilience and bring their best selves to work and home. It will also provide insights to bring back to their teams and the broader organization.

Encore Careers: Capitalizing on Your Leadership Competencies | Wednesday, April 10 | 1:00–4:30 p.m.

For nurse leaders entering into “preferment” or an “encore career,” the deep knowledge and skills learned over a career can be repackaged to capitalize on new opportunities, as well as leveraging individual leadership strengths. This workshop will help nurse leaders prepare to make informed decisions about their encore career development and trajectory.
