

New Open Access Journal  
from ISBI and Elsevier

# BURNS

## OPEN

An International  
Open Access journal  
for Burn Injuries

This new journal is complimentary to *Burns* and welcomes the submission of clinical and bench studies, ideas and innovations, description of techniques, and case reports and series on the following:

- Incidence and epidemiology of burns
- Investigation of underlying pathophysiology of injury, treatment of burn wounds and other skin conditions including rehabilitation and reconstruction
- Outcomes of burn management
