^c Department of Health Sciences, Carleton University, Ottawa, Ontario, Canada

^d Departments of Oncology and Community Health Sciences, Cumming School of Medicine, University of Calgary, Calgary, Alberta, Canada

The authors regret that in Table 5, the column heading ‘All’ should be changed to ‘All Associated.’ On page 41, Section 2.1.2, the fifth sentence reads ‘The resulting values were then combined with the median alcohol consumption of the six exposure categories, which were

0, 0.2, 1.4, 2.4, 3.3, and 5.3 drinks per day.’ In this sentence, the figure 3.3 should be changed to 3.5.

The authors would like to apologise for any inconvenience caused.
