The Breast

journal homepage: www.elsevier.com/brst

Publisher's note

From January 2020 *The Breast* will become an open access journal in order to align itself to the current changes in the publishing landscape. Authors who publish in *The Breast* will be able make their work immediately, permanently, and freely accessible. *The Breast* authors will pay an article publishing charge (APC), have a choice of license options, and retain copyright to their published work. The APC will be requested after peer review and acceptance and will be required for all accepted articles. In order to maintain a high quality of the published papers, *The Breast* continues with the same aims and rigorous peer review.
