Call for Papers

Special focus issue on improving patient safety

Patient safety is a serious global health issue. Nurses have a critical role in improving patient safety. This Special Focus Issue aims to report research and evidence based practice about patient safety. This special issue welcomes original research papers, perspectives, conceptual papers, case reports, systematic review, and scoping review articles that address a range of topics including, but are not limited to, the following areas:

- The four Cs of safety: Culture, Competency, Consequences & Continuous improvement
- Person Centered Care
- Nurses patient safety competency, both education and practice initiatives
- Teamwork, collaboration and communication
- Nurses' use of Electronic Health Record(EHR)

Manuscripts should be submitted through the standard online process following submission guidelines here, <https://www.elsevier.com/journals/international-journal-of-nursing-sciences/2096-6296/guide-for-authors>. It is recommended to email an inquiry letter to the guest editors, Dr. Huaping Liu (huapingliu@pumc.eud.cn) and Dr. Gwen Sherwood (gwen.sherwood@unc.edu) before submission; briefly describe the ideas and topics you

plan to cover. Deadline for manuscript submissions is April 10, 2019.

International Journal of Nursing Sciences (IJNSS, ISSN: 2096-6296, E-ISSN: 2352-0132, CN10-1444/R) is the official peer-reviewed research journal of the Chinese Nursing Association. This journal aims to promote excellence in nursing and health care through the dissemination of the latest, evidence-based clinical information and original research, providing an international platform for exchanging knowledge, research findings and nursing practice experience. This journal covers a wide range of nursing topics such as advanced nursing practice, bio-psychosocial issues related to health, cultural perspectives, lifestyle change as a component of health promotion, chronic disease, including end-of-life care, family care giving.
