Call for Papers

# Special Focus Issue on oncology nursing

International Journal of Nursing Sciences is the official publication of Chinese Nursing Association publishing a wide spectrum of nursing sciences to promote excellence in nursing practice and health care. Cancer is a very complex disease and nursing plays a crucial role in improving the physiological and psychosocial status among patients living with cancer. The multi-disciplinary approaches and efforts are required to understand and manage cancer in an effective and efficient manner. This Special Focus Issue is intended to encompass that of multi-disciplinary researchers in the global community and from any scientific discipline where the primary focus of the research is to increase and integrate knowledge about cancer nursing with the ultimate aim of advancing the cure, prevention and rehabilitation of this increasingly devastating disease. To achieve these aims, the Special Focus Issue publishes articles that address a range of topics relating to cancer nursing.

The Special Focus Issue publishes the following article types:

● Research article
● Review article
● Methodological paper
● Debate
● Case report and case series
● Study protocol
● Letter to the editor

Areas of study (not confined to):
A broad spectrum of oncology nursing research, palliative care, communication and information exchange, community cancer care, caring for families and care givers, developing the workforce to meet the needs of cancer survivors, and emotional, spiritual or ethical dimensions of cancer survival.

● Patient adherence, quality of life, satisfaction
● Rehabilitation

● Psyshosocial caring for oncology patients
● Epidemiology, detection, and screening
