Specialized Education for You

Whether you're new to the field of infection prevention and control (IPC) or an expert, APIC provides the clinical education and professional development programs to support your learning and growth—at every stage of your career. Our educational opportunities give you the training and development you need to stay current and be ready for whatever is around the corner.

Upcoming APIC Education:

EPI® Intensive

March 11-14, 2019 | Providence, RI

May 5-9, 2019 | Portland, OR

APIC has trained thousands of novice IPs through our EPI Intensive course which covers fundamental IPC practices. Over the course of four days, you will learn evidenced-based best practices to develop an effective IPC program to protect patients, reduce risk, and comply with accrediting and regulatory requirements. Register for an upcoming program at apic.org/epi-intensive.

ASC Intensive

March 11-14, 2019 | Providence, RI

This course is based on the exceptional learning of our EPI Intensive program, but designed specifically for those working in surgical centers, pain clinics, endoscopy centers, and other ambulatory

surgery care (ASC) practice settings. Register for an upcoming program at apic.org/asc-intensive.

APIC 2019 Annual Conference

June 12-14, 2019 | Philadelphia, PA

Whether you need foundational skills or are looking to advance your expertise in IPC, the APIC Annual Conference provides three days of learning, networking, and development that will help you get real world solutions to the IPC challenges you face every day. Plus, you'll get access to our amazing exhibit hall featuring over 200+ exhibitors. Experience the largest gathering of IPs in the world and be a part of our vision to advance a world without infection. Register for APIC 2019 at apic.org/annual.

Upcoming APIC Online Education:

Whether you prefer to learn at your own pace or can't get away from work for an extended period, APIC Online Education courses are available for up to 12 months—and accessible across devices. Find EPI Education, certification preparation, and specialized courses across a variety of topics such as basic microbiology; construction and renovation; and cleaning, disinfection, and sterilization. Discover these and additional topics at apic.org/online.

Stay current with your knowledge and training and continue your path of professional development. Depend on APIC for the leading education courses to get you there.
