## Message from the current President of EAMS

Dear European Airway Management Society (EAMS) members.  
The fact that you are reading this text in TACC confirms that you are a dedicated airway-manager actively expanding your horizon!

- And that is exactly what EAMS is about, giving us an optimal opportunity to learn, exchange and develop new knowledge in airway management. Other benefits from being an EAMS member are, access to TACC, access to the selected and commented "Article of the month" where we as members can post comments and propose papers and, from June-2019, EAMS-membership also gives access to the online version of the European Journal of Anaesthesiology (EJA). Additionally, there is ample opportunity to exchange knowledge with members around the world, to optimize your own knowledge as an Airway Teacher, to become active in the EAMS organization, to contribute to the yearly EAMS-European Airway Congress (EAC) and for submitting your airway-management papers to TACC. Check <http://www.eamshq.net>.

I suggest that we all expand the knowledge of EAMS to your colleagues worldwide – in this way we will have a better chance of sharing our knowledge and make progress in airway management globally.

All the best from Copenhagen.

Michael Seltz Kristensen, President EAMS.
