
JOURNAL OF CLINICAL EPIDEMIOLOGY

VOLUME 112, AUGUST 2019

TABLE OF CONTENTS

Editorial

- v Comprehensive evidence and clinical judgment
J. André Knottnerus, and Peter Tugwell

Review

- 77 Leveraging the entire cohort in drug safety monitoring: part 1 methods for sequential surveillance that use regression adjustment or weighting to control confounding in a multisite, rare event, distributed data setting
Jennifer C. Nelson, Ernesto Ulloa-Pérez, Jennifer F. Bobb, and Judith C. Maro

Original Articles

- 1 Video strategies improved health professional knowledge across different contexts: a helix counterbalanced randomized controlled study
Mitchell N. Sarkies, Stephen Maloney, Mark Symmons, and Terry P. Haines
- 12 Established search filters may miss studies when identifying randomized controlled trials
Chris Cooper, Jo Varley-Campbell, and Patrice Carter
- 20 Expert panel diagnosis demonstrated high reproducibility as reference standard in infectious diseases
Chantal B. van Houten, Christiana A. Naaktgeboren, Liat Ashkenazi-Hoffnung, Shai Ashkenazi, Wim Avis, Irena Chistyakov, Teresa Corigliano, Annick Galetto, Iker Gangoiti, Alain Gervaix, Daniel Glikman, Inga Ivaskeviciene, Amir A. Kuperman, Laurence Lacroix, Yvette Loeffen, Fanny Luterbacher, Clemens B. Meijssen, Santiago Mintegi, Basbeer Nasrallah, Cibon Papan, Annemarie M.C. van Rossum, Henriette Rudolph, Michal Stein, Roie Tal, Tobias Tenenbaum, Vytautas Usonis, Wouter de Waal, Stefan Weichert, Joanne G. Wildenbeest, Karin M. de Winter-de Groot, Tom F.W. Wolfs, Niv Mastboim, Tanya M. Gottlieb, Asi Cohen, Kfir Oved, Eran Eden, Paul D. Feigin, Liran Shani, and Louis J. Bont, the IMPRIND consortium
- 28 Risk of bias in nonrandomized studies of interventions showed low inter-rater reliability and challenges in its application
Silvia Minozzi, Michela Cinquini, Silvia Gianola, Greta Castellini, Chiara Gerardi, and Rita Banzi
- 36 Improvement was needed in the standards of development for cancer core outcome sets
Elizabeth Gargon, Paula R. Williamson, Jane M. Blazeby, and Jamie J. Kirkham

JOURNAL OF CLINICAL EPIDEMIOLOGY

VOLUME 112, AUGUST 2019

TABLE OF CONTENTS *continued*

- 45 Telephone call reminders did not increase screening uptake more than SMS reminders: a recruitment study within a trial
Karen Bracken, Anthony Keech, Wendy Hague, Adrienne Kirby, Kristy P. Robledo, Carolyn Allan, Ann Conway, Mark Daniel, Val GebSKI, Mathis Grossmann, David J. Handelsman, Warrick Inder, Alicia Jenkins, Robert McLachlan, Bronwyn Stuckey, Bu B. Yeap, and Gary Wittert
- 53 Risk of bias assessments for selective reporting were inadequate in the majority of Cochrane reviews
Frano Saric, Ognjen Barcot, and Livia Puljak
- 59 PubMed coverage varied across specialties and over time: a large-scale study of included studies in Cochrane reviews
Tove Faber Frandsen, Mette Brandt Eriksen, David Mortan Grøne Hammer, and Janne Buck Christensen
- 67 Baseline *P* value distributions in randomized trials were uniform for continuous but not categorical variables
Mark J. Bolland, Greg D. Gamble, Alison Avenell, Andrew Grey, and Thomas Lumley
- 87 Research environment of clinician–scientists in China in health policy/health services research
Mingyue Gao, Linda Zhou, Kun Tang, and Matthew H. Liang

Letters to the Editor

- 93 Reporting checklist for methodological, that is, research on research studies is urgently needed
Livia Puljak
- 93 Transparent and systematic reporting of meta-epidemiological studies
Anders Granholm, Carl Thomas Anthon, Anders Perner, Jon Henrik Laake, and Morten Hylander Møller
- 95 Research-on-research studies or methodological studies are primary research
Livia Puljak
- 95 How can metaresearch be classified?
Clovis Mariano Faggion Jr, and Karla Tatiana Diaz
- 96 Measuring clinical uncertainty as a preliminary step to randomized controlled trials
Robert Fahed, Tim E. Darsaut, Behzad Farzin, Miguel Chagnon, and Jean Raymond
- 98 Reducing waste and increasing value through embedded replicability and reproducibility in systematic review process and automation
Farhad Shokraneb
