

## CONTENTS

---

### Images in Dermatology

- 135** Erythematous papular rash with sparing of folds  
*Katerina Yale, BA, Ashley N. Elsensohn, MD, MPH, Jessica Shiu, MD, PhD, Kyle Amber, MD, and Janellen Smith, MD*
- 153** Verrucous plaques on the elbows  
*Paul M. Hoesly, MD, Mario M. Mitkov, MD, and Mark A. Cappel, MD*
- 156** Brown macule on vulva of an elderly woman  
*Megan A. Jones, DO, Taylor Edwards, DO, and Tanya Ermolovich, DO*
- 167** Multiple white papules on the retroauricular fold  
*Li-wen Zhang, MM, Wen-ju Wang, MM, Lei Xu, MM, Cong-hui Li, PhD, MD, Yong-hong Lu, MM, Lin Li, MD, and Fen Li, MM*
- 

### Case Reports

- 111** Dupilumab treatment for atopic dermatitis leading to unexpected treatment for alopecia universalis  
*Dema T. Alniemi, MD, and Laura McGevna, MD*
- 113** Epidermotropic poorly differentiated adenocarcinoma of colon presenting as a diffuse erythematous petechial rash  
*Luis-Antonio Sardiña, MD, Addie Walker, MD, and Melissa Piliang, MD, FAAD*
- 116** Remission of alopecia universalis in a patient with atopic dermatitis treated with dupilumab  
*Jan Smogorzewski, MD, Tiffany Sierro, BS, Goli Compoginis, MD, and Gene Kim, MD*
- 118** A case of erosive pustular dermatosis of the scalp in a pediatric patient  
*Matthew LaCour, BS, Timothy Allen, BS, Michael Wilkerson, MD, and Adam V. Nguyen, MD*
- 121** Rare case of leukemia cutis presenting as erythroderma in a patient with acute myeloid leukemia  
*Marie Donaldson, BA, Matthew I. Ebia, MS, Joshua L. Owen, MD, PhD, and Jennifer N. Choi, MD*
- 124** Linear IgA bullous dermatosis treated with rituximab  
*Camille Pinard, MD, Vivien Hebert, MD, Myriam Lecuyer, MD, Laurine Sacre, MD, and Pascal Joly, MD, PhD*

Continued on page A3

- 127** Cutaneous lymphoid hyperplasia arising in pre-existing morphea plaques treated with methotrexate  
*Motaz Dairi, MD, Jean-Philippe Arnault, MD, Ali Dadban, MD, Florian Lombart, MD, Christophe Attencourt, MD, Nicolas Ortonne, MD, PhD, Catherine Lok, MD, PhD, and Guillaume Chaby, MD*
- 131** When amplified *Mycobacterium tuberculosis* direct (MTD) testing confuses leprosy diagnosis: A case report  
*Sarah Schmitz, BS, Marjon Vatanchi, MD, Farzad Moussavi, MD, John DeLury, MD, and Edward Heilman, MD, FAAD, FCAP*
- 140** Bowel-associated dermatosis arthritis syndrome: A case report with first positron emission tomography analysis  
*Nolan Hassold, MD, Germain Jelin, MD, Elisabeth Palazzo, MD, Lydia Deschamps, MD, Marine Forien, MD, Sébastien Ottaviani, MD, Vincent Descamp, PhD, and Philippe Dieudé, PhD*
- 144** A case of linear morphea involving the oral cavity  
*Mildred Lopez Pineiro, MD, Kory Lee, MD, and Sarah Pinney, MD*
- 147** Arterial hand ulcer: A common disease in an uncommon location  
*Mary Clare Bohnett, MD, Michael Heath, BS, Stephanie Mengden, MD, and Lynne Morrison, MD*
- 150** An interleukin-17 inhibitor successfully treated a complicated psoriasis and psoriatic arthritis patient with hepatitis B virus infection and end-stage kidney disease on hemodialysis  
*Yuta Koike, MD, PhD, Yumi Fujiki, MD, Maho Higuchi, MD, Reika Fukuchi, MD, Sayaka Kuwatsuka, MD, and Hiroyuki Murota, MD, PhD*
- 159** Pseudoangiomatous stromal hyperplasia presenting as an axillary mass in a postmenopausal woman undergoing in vitro fertilization  
*Jesse Liu, MD, Megan Casady, MD, Kristen Paral, MD, and Jennifer Powers, MD*
- 162** The management of numerous carcinomatous sequelae of human papilloma virus in an allogeneic stem cell transplant patient with chronic graft versus host disease  
*Amanda Williams, MD, Courtney Gwinn, MD, Jayasri Iyer, MD, Philip Fleckman, MD, and Michi M. Shinohara, MD*
- 170** Disappearing pigmentary mosaicism during imatinib treatment for gastrointestinal stromal tumors  
*Emily Coleman, BA, Gauri Panse, MD, Shawn Cowper, MD, Jill Lacy, MD, and Jonathan Leventhal, MD*

*Continued on page A4*

- 173** Foreign body gingivitis: An uncommon iatrogenic simulant of oral lichenoid mucositis  
*Stephanie T. Le, MD, Brian Hinds, MD, MS, Richard Jordan, DDS, PhD, FRCPath, and Anna Haemel, MD*
- 176** The pulseless patient: Profound vasculopathy as the presenting feature of fulminant dermatomyositis and response to therapy  
*Farzam Gorouhi, MD, Maija Kiuru, MD, PhD, Marc Silverstein, MD, Parisa Emami-Naeini, MD, MPH, Susanna S. Park, MD, PhD, and Danielle Tartar, MD, PhD*
- 180** Oral mycosis fungoides with CD30<sup>+</sup> large cell transformation successfully treated with brentuximab vedotin  
*Clare A. Goggins, BS, M. Timothy Gocke, DDS, Sekwon Jang, MD, and Jennifer A. DeSimone, MD*
- 184** Secukinumab and hidradenitis suppurativa: Friends or foes?  
*Claudio Marasca, MD, Matteo Megna, MD, Anna Balato, MD, Nicola Balato, MD, Prof, Maddalena Napolitano, MD, and Gabriella Fabbrocini, MD, Prof*
- 188** Successful use of a fractional 2940-nm laser in treating chronic, severe erosive pustular dermatosis of the scalp  
*Hailey E. Grubbs, BS, MS-IV, and Chris W. Robb, MD, PhD*
- 195** Epidermodysplasia verruciformis in a young adult with activated PI3K $\delta$  syndrome  
*Stephanie L. Donaldson, BS, J. Chase Purnell, MD, Peter G. Pavlidakey, MD, Thomas P. Atkinson, MD, PhD, and Rebecca Kissel, MD*
- 198** Tumid lupus erythematosus—like pseudovasculitic lesions in catastrophic antiphospholipid syndrome  
*Jenny Z. Wang, BA, Kourosh Beroukhim, MD, Yi-Chun Chen, MD, Danielle Tartar, MD, Maxwell Fung, MD, and Alain Brassard, MD, FRCPC*
- 201** Paraneoplastic scleroderma in the setting of CD30<sup>+</sup> large cell transformation of mycosis fungoides  
*Dawn Queen, BA, Adriana Lopez, BA, and Larisa J. Geskin, MD*

---

**Case Series**

- 191** Apremilast as a potential treatment for moderate to severe dermatomyositis: A retrospective study of 3 patients  
*Carole Bitar, MD, Jalal Maghfour, MS, Hoang Ho-Pham, MD, Brittany Stumpf, MD, and Erin Boh, MD, PhD*

---

**Notes & Comments**

- 134** Caliphylaxis causes recurrent pancreatitis  
*Aoibheann Flynn, MD, Aine de Bhailis, MD, Ann-Marie Tobin, PhD, George Mellotte, MD FRCPI, Professor, and Maureen Connolly, MD*

*Continued on page A5*

- 138** Comment on “Oral lichenoid reaction in a psoriatic patient treated with secukinumab: A drug-related rather than a class-related adverse event?”

*Antonella Di Cesare, MD, Roberto Maglie, MD, Leonardo Pescitelli, MD, Elia Rosi, MD, and Francesca Prignano, MD, PhD*
