### Corrigendum

## Corrigendum to “Does age affect response to quinidine in patients with *KCNT1* mutations? Report of three new cases and review of the literature” [Seizure 55 (February) (2018) 1–3]

Elie Abdelnour<sup>a</sup>, William Gallentine<sup>a</sup>, Marie McDonald<sup>b</sup>, Monisha Sachdev<sup>a</sup>, Yong-Hui Jiang<sup>b</sup>, Mohamad A. Mikati<sup>a,\*</sup>

<sup>a</sup> Division of Pediatric Neurology, Department of Pediatrics, Duke University, Durham, NC, United States

<sup>b</sup> Division of Genetics, Department of Pediatrics, Duke University, Durham, NC, United States

The authors would like to report an error appearing in the text, under 2. Case Reports, in paragraph 2.2 Patient 2. The *KCNT1* de novo gene mutation was mistakenly reported as c.2965 G > T, instead of the

correct mutation which was c.2955 G > T. The change does not affect the scientific results.

The authors would like to apologise for any inconvenience caused.
